TO SEE THE FAIR.

European Workingmen Will Cross the Ocean

The London Polytechnic Making Arrangements

To Transport and Feed the Toilers While Here.

Excursion Rates to Be Placed so Low that Everybody Can Afford to Visit the United States and See the Wonders They Have Been Told Exist on This Side.

London, Dec. 29.—Mr. Douglas Hogg and Mr. Robert Mitchell to-day completed arrangements to leave Liverpool on January 20 by the Inman line steamship City of Chicago, in order to arrange for a series of workingmen's excursions to the world's fair in 1893.

These excursions are to be promoted by the London Polytechnic, a popular institution for the promotion of the interests and education of working classes.

A United Press correspondent this morning had an interview with Mr. Mitchell, who is the secretary of the Polytechnic, in regard to the project. Mr. Mitchell said:

"We shall proceed to the United States to obtain if possible concessions for our excursionists from the railroad companies of the United States, similar to those which in previous years have been granted us by European companies. These have included half fares.

"We also wish to secure, beforehand, accommodation for our trippers during their stay in Chicago and other cities. We are making our arrangements so far in advance that those who propose to take part in any of our trips to and from the World's fair may have an opportunity of paying weekly or monthly instalments toward the cost. By this means a large number will be able to go who could not do so if they were required to pay the money down at one time.

"The early announcement of the tour will also be of special help in enabling some who desire to visit the Chicago exhibition to forego their holiday next year and obtain leave of absence from work for double the usual period in 1893.

"These arrangements are not intended for persons who are well able to avail themselves of the excursions which are being promoted by various tourists agencies. The object is to afford workingmen and others, who, but for the Polytechnic enterprise would be precluded from visiting and profiting by the Worl's fair, an opportunity of doing so at a minimum cost."

BRAZILIAN AFFAIRS.

New York, Dec. 29.—A Herald dispatch from Buenos Ayres says there is a spirited struggle in Rosario over General Mitre and Senor Irigoyen, the presidential candidates.

It is expected that the United States war ship Yantic will arrive in the Rio La Plasta to-day. Three other ships of the American white squadron have been sighted off the coast.

KING FOR CONGRESS.

Youngstown, O., Dec. 29.—Judge L. W. King, state republican chairman, has given it out that he is a candidate for congress.

IT WAS BOGUS FLOUR.

Gigantic Fraud Discovered in Russia.

Nearly Eight Million Pounds of Flour Found to Be Adulterated With Chalk and Other Substances.

St. Petersburg, Dec. 29.—The scandal arising from the discovery of adulterated flour here is apt to make trouble for a number of people.

The consignment comprised 300,000 poods (7,800,000 English pounds) of barley flour, which had been purchased from dealers in Libau, with the view to regulating the price of wheat in the St. Petersburg market, as well as to afford relief to famine sufferers.

An investigation proved that the entire consignment had been adulterated with chalk dust and other substances. To make certain of the nature of the adulterants employed the government officials had a quantity of the so-called flour subjected to a chemical analysis.

This disclosed the fact that several substances had been used for adulterating the flour, and that they comprised such a large proportion of the consignment that the use of the alleged flour would have constituted a very dangerous menace to the health, if not the lives, of those who partook of it.

Several samples of the adulterated product have been procured by the Novoe Vremya, and are displayed in the offices of that paper. In speaking of the gigantic fraud by which somebody has attempted to defraud the government, the Novoe Vremya remarks that if such frauds can be perpetrated in the capital of the empire, the appalling accounts that have been received of similar crimes in the famine-stricken provinces cannot be exaggerated, as some persons are disposed to believe they are.

TO ARREST MRS. OSBORNE.

She Is Now Charged with Serious Crime.

Believed to Have Sailed for the United States, Where Her Methods Would Thrive Undisturbed.

New York, Dec. 29.—A London dispatch to the World says that when the Bothnia reached Queenstown yesterday Scotland yard detectives searched for Mrs. Osborne, but failed to find her.

It is thought probable that Mrs. Osborne caught the City of Paris at Queenstown last Thursday and is now on her way to the United States. As the warrant out for her is for obtaining money under false pretenses, she would be safe as the charge is not extraditable.

The Liverpool authorities are keeping a sharp lookout at all railway stations and outgoing steamers.

There has been wired all over the United Kingdom a description of Mrs. Osborne as follows:

"Mrs. Ethel Florence Osborne, wanted on a charge of obtaining a check for £550 on false pretenses; age, twenty-six; height, five feet five or six inches; complexion pale, slim built, hair dark and thick; shows teeth very much when talking; rather Jewish in appearance; dresses fashionably; is in delicate health; may be accompanied by a lady or gentleman; took with her when she left her lodging, December 21, several lady's wicker baskets, one very large, covered with black American leather. Cause careful inquiries to be made in hotels, private lodgings and shipping offices. Should any trace be obtained, wire at once to Superintendent McWilliams, city police."

Despite the issuing of this order, the police believe Mrs. Osborne to be in Spain. There is good authority for stating that she left Paris Monday. Capt. Osborne, overwhelmed with shame and grief, has sent his resignation to the war office. The authorities are trying to get him to withdraw it, his superiors fully indorsing his action.

MIGHT HAVE BEEN FATAL

Sad Outcome of What Was Intended for a Joke.

A Noose Left Dangling from a Tree Catches a Tailor by the Neck and Nearly Strangles Him.

Wooster, O., Dec. 29.—Adam Stair, a Mount Eaton merchant, is telling his friends how it feels to be hanged. Three boys of the village, the leader Mr. Stair's son, concluded to play a joke on some one by hanging a heavy packing cord noose from a tree and catch them as they passed.

The tree from which the noose was suspended is on a slight slope. Mr. Stair started to the postoffice and while walking rapidly struck the noose in such a way as to throw it around his neck. He was at the same time jerked from his feet and left dangling in the air. He was found nearly dead, his face being black and blue, by Ed Ruesch and Martin Wescott, who released him from his perilous predicament. It was several hours before he was fully restored.

Bluff and Bluster Did Not Avail Them,

Albany, N. Y., Dec. 29.—The decisions in the election cases by the court of appeals gives the senate to the democrats.

The Twenty-fifth and Twenty-seventh districts are decided in favor of the republicans, and the Fifteenth and the Sixteenth in favor of the democrats.

The assembly is democratic.

TWO BROTHERS PARDONED.

Columbus, O., Dec. 29.—Gov. Campbell has pardoned two prisoners. They are Joseph and Otis Flemming, who were imprisoned in 1884 for 18 and 19 years respectively for manslaughter. They were paroled in 1886, and their good conduct since then, together with the recommendations of the trial judge and jury, has secured their release. In a saloon fight in Defiance a bully named Absolyn Snyder was kicked to death, and the crime was fastened on the Flemming brothers.

KILLED IN A QUARREL.

New York, Dec. 29.—A Herald dispatch from the City of Mexico says that Juan N. Navarro, chief engineer of the land survey company, and son of the Mexican consul general in New York, was shot recently during a quarrel in Topachula, state of Chippas. It is also reported that Senor Navarro is in a critical condition.

STARED DEATH IN THE FACE.

Frightful Accident Reported in the East.

A Coach Penned In Between Two Railroad Gates Is Struck by a Rapidly Moving Train.

New York, Dec. 29.—By an error on the part of a gateman employed by the Long Island railroad, at the Greenpoint avenue crossing, Blissville, to-day, a coach containing four people was penned in on one of the tracks, the vehicle smashed, the occupants of the carriage probably fatally injured and the horses killed, by an eastbound train.

The coach was returning from Calvary cemetery. In it were Mrs. Kolb, her 6-year-old daughter, Mamie, Mrs. O'Brien and Mrs. Searing.

The carriage started to cross the tracks and the hind wheels had just cleared the gate when the gateman lowered the gates, penning the carriage between the gates.

A train running at high speed was approaching and Sutton, the driver of the carriage, seeing he could not move the carriage, attempted to open the door and release the occupants.

Before he could do so the engine struck the carriage, throwing the occupants out and killing the horses. Sutton and his four passengers were picked up unconscious and taken to the hospital, where, it is stated, their injuries are serious.

THE BRAKEMAN'S STORY.

He Tells of the Awful Wreck at Hastings.

A Statement From the Man Who Stands Charged with Causing so Many Deaths.

Poughkeepsie, N. Y., Dec. 29.—Mr. Timothy Herrick, of Staatsburg, father of Alfred Herrick, the fugitive New York Central trainman, saw his son in New York on Saturday and had a long talk with him. He said he urged his son to go to the railroad officials and tell them his story, but could not get him to do so in the then state of public feeling.

Then his father got him to make a statement on paper, and bade him goodby, telling him he did not want to hear from him unless he was seriously ill, because he would be questioned continually about him. He told him to write no letters nor would he, the father, write to him. The statement, which has been sent to Superintendent McCoy, is as follows:

"D. B. McCoy, Esq., Superintendent, etc.

"Dear Sir: I would say in reference to the accident north of Hastings Christmas eve, that when our train slowed up, but while yet moving, I dropped off and placed two torpedoes on the rails and then ran back to the train, which was still moving, but as it slowed up more, I took my lights and started down the track to stop the Croton local, then nearly due. When half way down I placed one torpedo on the rail and then walked on down to the station, thinking it better to notify the engineer there than to stop him again before he was fairly under way.

"When I got to the station I placed my lights on the platform, the red light showing south, and then stepped into the station and inquired of the agent how the local was. He said he did not know, and I sat down and remained there three to five minutes, when I heard the train coming and started for the door, believing it to be the local. But as soon as I saw the train I knew it was the express. I grabbed my light, and tried to attract the engineer's attention, but it was too late. I followed up on the track, hoping that the train I had left 20 minutes before had pulled out of the way. I soon saw a man coming back with a red light. Soon as I got to him I asked what had happened, and he said they had struck something, but he did not know what it was. I went on further and met another man and asked if anyone was hurt, and he said all in the sleeper were killed. I did not deem it prudent for me to go to the wreck, so I turned about and came to New York. I fully realize the awful position I am placed in, and can only say I felt too sure the train to come first was the local. ALBERT HERRICK."

FOR PLUMB'S PLACE.

Many Men Who Would Like to be Senator.

Topeka, Kan., Dec. 29.—Delegations are arriving daily to urge the claims of the different candidates for appointment to succeed the late Senator Plumb.

Gov. Humphrey has been importuned and harassed so persistently that he is about losing patience. That is indicated by a remark made in reply to a question as to when he will appoint a senator. He said: "I want it understood that I am the one who will name the United States senator. I do not think I can make the appointment before the end of the week. I shall attend to the regular business of my office and consider the claims of the various candidates as I reach them."

The fight so far is between Simpson, Hudson and Perkins, but it is difficult to tell who has the best of it, as Gov. Humphrey is dumb as an oyster.

SCHOOL HOUSE FIRE.

Millersburg, O., Dec. 29.—There is a small sized war in one of the school districts in Mechanic township. A young lady named Lucy Hall is the teacher, and it seems she has corrected a couple of boys very severely, to which the parents objected, and have done everything possible to have the teacher removed. A petition was circulated asking the board to remove her, but only the friends of the parents signed it, and this failed.

Last night the school house was mysteriously burned to the ground with all of its contents, and incendiary talk is common. An investigation will be made. Loss on building and contents will reach $3,500; no insurance.

STRUCK BY A TRAIN.

Steubenville, O., Dec. 29.—An eastbound Pan Handle passenger train struck John Gallagher and Edward Duffy, both tunnel workmen. Both were walking east on the eastbound track, and did not hear the train as it rounded the curve. Duffy, who lives in this city, had his left leg broken and is injured internally, but will recover. Gallagher is bruised internally, and will die. His home is in Wheeling.

WAS A CASE OF FLIM FLAM

Forakerites Outwit the Shermanites in This City.

Why Heller Failed to Meet His Appointment.

The Friends of the Cincinnati Fire Alarm Capture the Whitehouse Statesman and Nail Him to the Political Cross.

"They say this town is full of cozenage;
As nimble jugglers, that deceive the eye,
Dark working sorcerers that change the mind,
Soul-killing witches that deform the body,
Disguised cheaters, prating mountebanks,
And many such like libertines of sin."
—Comedy of Errors.

One of the most exasperating pieces of political trickery on record was practiced in this city yesterday by friends of Foraker's on the followers of Senator Sherman.

On Saturday a committee of citizens, David Robison, jr., J. M. Ashley, N. H. Swayne and H. S. Walbridge went to Whitehouse with a view of interviewing Representative Heller on the senatorship muddle. The gentlemen named are firm friends of Sherman's. Mr. Heller was non-committal, but agreed to come to Toledo and have a conference with the committee and others. The rendezvous was the office of H. S. Walbridge and the time 10 a. m. yesterday. The committee was on hand as were quite a number of others but Mr. Heller failed to put in an appearance. They waited and waited and late in the afternoon County Commissioner Pray was appointed a committee of one to visit Mr. Heller at his home at Whitehouse and ask him for the whys and wherefores of his absence.

Mr. Pray went as instructed, and this morning he reported that he called upon Mr. Heller and that gentleman refused to give any further excuse for his absence other than that he was pledged to Foraker and had neither the time nor inclination to come to Toledo.

And now comes the secret of Mr. Heller's absence.

The local friends of Foraker boasted last night of how they flim-flammed Ashley, Robison et al.

Mr. Heller came to Toledo yesterday, they say, but was immediately captured and induced after a long argument to return to Whitehouse without keeping his appointment. He argued that while nothing could alter his determination to support and vote for Foraker, that common decency required him to keep the appointment with the committee. But decency, it seems, is a stranger to the element that effected his capture, and the honorable gentleman himself don't seem to have an excessive stock of the very desirable quantity or else he would not have allowed himself to be seduced into breaking his word.

So say the Shermanites, and they have placed a rod in brine for the Whitehouse statesman.

INDIAN NATIONAL CONGRESS.

It Opened To-day with a Brahmin in the Chair.

London, Dec. 29.—A dispatch from Bombay says that the Indian national congress opened to-day at Nagpoor, "town of serpents," capital of Nagpoor district and of the central provinces.

There were 800 delegates present. Charlu, a Brahmin, was elected president of the congress.

In his opening address the president deplored the death of Charles Bradlaugh, the noted English free thinker, who, he said, was during his life the champion of India in and out of the imperial parliament.

President Charlu urged that a congress should be held in London, in order to spread throughout Great Britain the doctrines advocated by the Nagpoor congress.

AID FOR THE POOR.

London, Dec. 29.—Mr. Joseph R. Cox, member of parliament for East Clare, who has visited Australia in order to raise funds for the relief of evicted tenants in Ireland, announces that he has received promises of subscriptions to the amount of $125,000 for the purpose referred to.

SHOT BY ACCIDENT.

Sad Death of a Boy Near Auburndale.

He Handed a Shotgun to a Companion and by Accident It Was Discharged.

A sad case of accidental shooting occurred yesterday afternoon near the westerly city limits. Fred Brough, living at 95 Macomber street, a 16-year old lad, was shooting birds on Bancroft street, with a double-barreled shotgun. He handed the gun to a companion named James Green and in some manner the weapon was discharged, nearly the whole charge entering Brough's leg. This happened about 2 o'clock in the afternoon and the lad died about 5 o'clock despite the fact that every effort was made to save him by the physicians. The coroner held an inquest last evening and rendered a verdict of accidental shooting.

HAVE TREED MR. GRIFFIN

His Accusers Make Interesting Affidavits.

Messrs. Brown and Hughes Clinch the Charge.

The Maumee Statesman in the Role of a Prevaricator—The Boom Proves a Boomerang.

"Ah, what a tangled web we weave
When first we practice to deceive."

There is blood on the moon and the local followers of Sherman have hay in their horns.

Representative Chas. P. Griffin has made a break which he cannot undo in a lifetime of repentance.

Yesterday the Bee published the chief facts in the alleged attempt to bribe the Maumee statesman. Mr. Griffin denied emphatically that he had been offered a bribe or told anyone that a bribe had been offered him.

Mr. Walter O. Brown, jr., the well-known meat merchant, is equally as emphatic in his statement that he (Griffin) did tell him and a friend that he (Griffin) had been offered a bribe. Now comes Mr. Brown with an affidavit backed by a second from his friend, who is none other than Mr. L. H. Hughes, of Findlay. Mr. Hughes in response to a telegram sent last night came to Toledo this morning, and he, together with Mr. Brown, went before Notary Public R. H. Adams and signed their names to an affidavit which stripped of its legal verbiage, is substantially as follows:

Mr. Brown testifies that he has been for 28 years a resident of Toledo, and Mr. H. L. Hughes for 41 years a resident of Findlay, Hancock county. They make oath that on the 22d of December they called at the office of Mr. C. P. Griffin, in Toledo, and had an extended interview with him. The purpose of their business had no connection whatever with the senatorial contest. After their business had been concluded the conversation turned upon state politics. Mr. Hughes congratulated Mr. Griffin upon the graceful manner in which he had withdrawn from the speakership contest. Mr. Griffin replied that he had no doubt but that he could have been elected had he continued in the field, but that he did what he believed was for the best; that he had met with a good deal of encouragement, but that he had found in his canvass that the friends of Sherman were very determined; that he had met a representative of the Cuyahoga delegation at Cleveland whom he had solicited to support him, but the man said to him that he would not vote for him for speaker unless he would pledge himself to support and appoint Sherman men for every position from sergeant-at-arms down to pages; that every appointee must be a Sherman man or the son of a Sherman man, or if his father was dead the son of a Sherman woman.

"Why," Mr. Griffin said, "to show you their methods, only last night at the dead of night I was called from my bed by a representative, a Foraker man, but who has been changed by monetary influences, and who said he was authorized to offer me $5,000—$3,000 of which I could have myself and $2,000 of which could be used for another man, if I could find him, if we would vote for Sherman."

Mr. Brown said to Mr. Griffin, "Do you not think it would be a great thing for the Foraker cause to expose the person making such a corrupt offer?" Mr. Griffin replied, "He came to me as a friend, and the matter was confidential."

Mr. Hughes was seen by a Bee at noon. He substantiated all that appears in the affidavit. He came to Toledo, he said, with a letter of introduction from Senator McConica to Mr. Griffin, and has no interest in the present controversy other than to clear himself and to give the public the full facts.

Mr. Walter O. Brown was also seen. "The essence of our conversation appears in the affidavit," he said, "and I can add but little more."

"I wish to say, however," he continued, "that I swear to what I stated to you yesterday, and I defy Mr. Griffin to swear to an affidavit denying the facts that I have stated."

Lest there should be any mistake in Mr. Griffin's interview of yesterday a Bee called upon him just before he left for Columbus yesterday afternoon.

The honorable gentleman was busily engaged talking to two men at one time, and after dismissing both turned his attention to the reporter.

"Mr. Griffin," said the reporter, "the Cleveland and Cincinnati papers have a story this morning to the effect that the Sherman men have offered you $5,000 if you would vote for Sherman."

"Have they?" said Mr. Griffin evidently surprised.

"Yes," replied the reporter, "have you seen the articles."

"No," replied the legislator, "I have not."

The article in question was then shown Mr. Griffin, and after reading it through he said it was all news to him, that it was the first he had heard of any such thing, and that there was no truth in it.

"Then you have seen no Sherman men lurking around your house with pockets full of money, offering inducements to get your vote for the Mansfield man?"

"No, sir," responded Mr. Griffin, "the story is entirely new to me."

"Does it not seem strange that Mr. Brown's name should be quoted in such a manner as coming from you, without your knowledge?"

"I know nothing about it," and the heavyweight statesman locked up his office and disappeared down the street.

MURDERED ON THE PLAINS.

Two Men Killed in the Choctaw Country.

Strong Evidence to Show Their Lives Were Taken by the Man Who Had Been One of Their Party.

Fort Smith, Ark., Dec. 29.—The brutal assassination of two men on Thursday night near Wilburton, Choctaw nation, has been developed by the arrest of George L. Longley at South McAlester, Indian territory

Three men, traveling in a wagon, were seen Thursday evening going into camp near Wilburton. The next day two stock hunters found the bodies of two dead men near the camp, their faces horribly mutilated. The wagon was followed and the arrest of Longley, while trying to sell the wagon and team on the streets of South McAlester, resulted.

Longley was jailed here yesterday. He refuses to talk except in the most insolent manner and no material answer can be secured from him, except that he formerly lived in Washington county, Ark., and was raised in Missouri.

He is 22 years old and apparently one of the worst cases ever brought to this court.

COMMITTED SUICIDE.

Weston, O., Dec. 29.—B. H. Ruttles, a printer here, has committed suicide by taking poison.

EMMICK SQUELCHED

By the Republican Council in Joint Session

By a Refusal to Confirm Voit's Appointment

As Gas Trustee—The Aldermen Rub it in by Passing the Railway Ordinance Over His Veto — Other Business.

Mayor Emmick once remarked to a Bee, "I have been in a number of offices but never in my life have I had so much trouble as I have had since I have been mayor of Toledo." He is probably more than ever convinced of this fact after the two beautiful black eyes that were presented to him by the republican council last night when they refused to approve his appointment of Reynold Voit as gas trustee to succeed Clarence Brown and then passed the street railway ordinance over his veto.

There were lively times around the council chamber last evening before the session and the largest lobby for years was on hand to watch the progress of different matters, principally this appointment, the street railway ordinance and the resolution to advertise for garbage bids. Incidentally it may be mentioned that a large proportion of the city and county officials were likewise on hand. Besides Engineer Wickenden, City Auditor Walker, and Solicitor Reed, who are usually present, there were Mayor Emmick, Police Judge Sala, Police Clerk Fogarty and Deputy Sam Tanner, Harbormaster Skeldon, Street Commissioner Bower, Assistant City Solicitor Watts, Sheriff Stuart, County Auditor Jones and Infirmary Director Herman Baumbach.

There was a large and visible kick against Mr. Voit's appointment as gas trustee, and before the meeting a committee of German citizens, including at least one of the mayor's bondsman, called upon Mayor Emmick and demanded that he withdraw Voit's appointment and substitute some other name. The conference was very spirited, but for once the mayor stood the fire unmoved and refused to withdraw the appointment.

Shortly after the republican members of both boards went into caucus, and another lively session was the result. The caucus lasted for an hour, and the loud talking could plainly be heard outside the committee room door. During the caucus a committee was sent out to call on the mayor and inform him that they could not approve Voit, and that he must name somebody else. He did not give the committee any satisfaction, however, and they were obliged to report their effort as fruitless.

About 8:45 the caucus adjourned and the members took their seats in the board. The resignation of Mr. Clarence Brown was read, followed by a communication from the mayor appointing Reynold Voit to fill the vacancy until the next municipal election.

Mr. Albright then arose and moved an immediate adjournment. Mr. Pheatt demanded an explanation of this action, but was ruled out of order.

Someone remarked that there was a constable to be appointed, and suggested that this be done before adjournment, but the republicans were too anxious to finish their work of squelching the mayor, and the vote on adjournment was taken at once. In order to test the republicans the democrats all voted no, but the opposition stood by their caucus agreement and voted unanimously to adjourn. The ballot stood 15 to 10, Messrs. Morris and Doner being absent.

This refusal to act on the mayor's appointment is a practical rejection, and the reason given by one of the republican members to a Bee was: "He had no show at all, and we only took this way to let him down easy. The mayor will have to try it again."

The board of aldermen then came to order, and when the mayor's veto of the general street railway ordinance was read they at once proceeded to give Mr. Emmick another slap by passing it over his veto, Mr. Everett being the only one to vote against this action.

This was received with a suppressed cheer by the crowd of street railway employes present, and they went home satisfied. The fact that the board of aldermen stands six to three republican will hardly be any consolation to the mayor.

Mr. Emmick had been very numerous about the council chamber before the boards came together, but after these two knock downs he gathered himself up and quietly disappeared.

Other Business.

No new business was introduced, and as there were no committee meetings last week the board at once went to work on the business from the councilmen.

A resolution to improve Yondota street, from First to the Lake Shore tracks, was referred back to the committee, on motion of Mr. Macomber, and a resolution to grant a free peddler's license to Jacob Blum was laid over for two weeks on motion of Mr. Potter.

When the resolution to advertise for bids for collecting garbage for two, three or five years, came up for concurrence in these amendments Mr. Macomber raised objections.

He moved that the action of the last meeting of aldermen which set the time of the contract at two years be reconsidered. As his reasons for this he stated that it would be impossible for anybody to measure the necessities of the garbage collecting for this city for five years to come. He suggested that after the matter had been reconsidered the time be set for three years.

Mr. Huberich wanted the time set at five years. He stated that some different method of disposing of the night soil than that now employed should be had, but that no one would go to the expense of putting in a plant for this work unless they would be assured of a five years' contract.

Mr. Macomber said that no other city in the country of the size of Toledo or much larger pretended to dispose of the night soil by any other method than that of hauling it away to the surrounding country and plowing it under. This is the method here and he said that there had been no dissatisfaction and the night soil was thus made to fertilize the ground, which should be the proper disposition of it.

Mr. Everett raised the point that before a contract can be let a certificate must be procured from the auditor certifying that there is money enough for the contract in the city treasury unappropriated for any other purpose. If this was true he did not think it advisable to tie up the city's funds for three or five years even if the money was on hand.

When inquiry was made of City Solicitor Read he stated that the contract for this work would be void unless a certificate was obtained from the auditor to the effect that the money was on hand.

This put a new phase on the matter. The members after some discussion did not seem disposed to tie up any city money for a term of years.

Mr. Macomber's motion to reconsider the former action of the board on this matter was carried, and Mr. Hartford moved that the resolution to advertise for bids be amended to make the contract for one year with the option on the part of the city to renew it for another year if the council saw fit. This was adopted unanimously, and the resolution will go back to the board of councilmen again for concurrence in this amendment.

Other business from the lower board was adopted.

The annexation ordinance which came up as unfinished business was again referred back to the committee for further consideration.

ENTERTAINMENTS.

Popular Katie Emmett at the Peoples'.

Stuart Robson in the Henrietta—Effie Ellsler—The Oberlin College Glee Club.

A big house for Monday night greeted Katie Emmett at the People's theater last evening, and the efforts of herself and company met high approval, as was shown by the enthusiastic applause. The play was that ever popular melodrama, The Waifs of New York, in which Miss Emmett is such a favorite. She is supported by an exceptionally good company, especially in the comedy parts, where George W. Thompson makes a good Hans Schneiderkopf and clever Amy Ames plays Biddy McShane, a part in which she excels all others.

The special scenery incident to the piece is first-class and very realistic, especially the great fire scene, which concludes the last act. Some good specialties are introduced, and altogether the piece is a good drawing card.

Howard's The Henrietta.

The Henrietta, the cleverest work of that brilliant author, Bronson Howard, will be presented at Wheeler's Wednesday next. While we might add that in a sense of duty there is one that should not be overlooked, and that is the cleverest of comedians, Mr. Stuart Robson; the ideal of all and a satisfier of all lovers of humor. Mr. Robson will be ably supported by an excellent company of players. The tour this present season with The Henrietta has surpassed that of all others. Mr. George S. Woodward, playing the opposite part to Mr. Robson (Old Nick Van Alstyne) has received but the most favorable encomiums from the press of the country.

Effie Ellsler.

The Effie Ellsler company, in the great success, Hazel Kirke, will be at Wheeler's Friday. What can be said now of Hazel Kirke at this late day? It is as familiar to the American public as household words, and most of the company have played in the piece at Madison Square theater, New York, and throughout the country, over 2,000 times. Miss Effie Ellsler as Hazel, and the old veteran actor, Mr. C. W. Couldock, as Dunstan Kirke, he of the iron will, in their respective characters present stage pictures that leave a lasting impression on the oldest of theater goers, and enact the parts in a manner that could not possibly be improved upon.

Oberlin Glee Club.

The Oberlin College Glee club will be at the Central Congregational church Friday evening, and a rare treat is promised. The Cleveland Leader speaks of them as follows: "The club is composed of very fine voices—two or three notably so. Their ensemble work is excellent. Their time, blending and harmony very satisfactory. Their college songs and glees were of a high order, and the program contained no old worn-out catches, most of the numbers being new to the audience. The audience was an appreciative one and warmly encored almost every number."

Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle.

HOW TO COOK A HUSBAND.

An Art Which, Once Acquired, is a Most Useful One.

Many a good husband is spoiled in the cooking. In selecting your husband you should not be guided by a silvery appearance, as in buying mackerel, nor by the golden tint, as if you wanted salmon. The best way is to select him yourself, as tastes differ. Do not go to the market for him; the best are always brought to your home. Having caught one, you must learn how to cook him, to make a good dish for your home.

Some men are roasted too much in cooking, and some keep them constantly in hot water, while others freeze them in conjugal coldness. Some keep them in pickle all their lives. Such women serve them up with tongue sauce. Some women use too much spice. A little spice improves them, but must be used with judgment. Now, it is not to be supposed that husbands will be tender and good if treated in this way, but they are very delicious when managed as follows:

Get a large preserving kettle, called the kettle of carefulness, which all good housewives should have on hand. Place your husband in it, and place it near the fire of conjugal love. Let the fire be clear, and above all let the heat be constant. Cover him over with affection; garnish him with the spice of pleasantry; add a little sugar in the form of what confectioners call kisses; let them be accompanied by a sufficient portion of secrecy, mixed with prudence and moderation. Never use vinegar or peper on any account. In getting him ready for the kettle see that the linen you wrap him in is of the best and the tie-strings newly sewed on. Tie him by a strong silk cord called comfort. Keep your cover of duty well over him and your steady fire of love burning brightly.

Do not stick him with a fork to see if he has become tender, but stir him gently, and you cannot fail to know when he is done. Be sure he is kept well in the kettle until quite done; for, like the lobster, he is cooked while alive. When done, take him from the kettle and place him at your neatly spread table, and serve him a good dinner. Unless you become careless or set him in a cold place, he will keep well cooked in this way.—Minneapolis Spectator.

VENEZUELA WANTS IMMIGRANTS

The Panama Star and Herald is authority for the following statement of extra inducements Venezuela is willing to give to secure the immigrants she wants to develop her rich but wild territory: "The government will pay the passage of the immigrant from the port of sailing to the port of landing, allow him to import his personal belongings, tools, etc., free of duty, will pay his board for 16 days, give him two and a half acres of land and allow him to purchase all he wants for half price, with two years' credit to pay for it, exempt him from military service, and guarantee him all the privileges and humanities allowed to foreigners." It should be stated that the republic is somewhat particular as to the kind of immigrants it will receive.

REFUSED TO INVESTIGATE

The Charges of Mismanagement Preferred by the Bee.

The Natural Gas Trustees Hold a Lengthy Session and Talk Considerable Business—Mr. Backus Has Some Resolutions.

It was on the whole a quiet meeting that the board of natural gas trustees held last evening. Mr. Backus presented a series of resolutions seeking information on the condition of the plant, but they went by the board, so to speak. He also presented a resolution relative to the charges made by the Bee.

"Some two weeks ago," Mr. Backus said, "a committee was appointed to investigate a similar matter. The statements made by the Bee are far more important than those investigated. If the charges are true we should know it, if not the person writing them should be known and an effort made to find who furnished him the information."

Dr. Jones—"I don't know to what charges you refer."

Mr. Backus—"Do you read the papers?"

Dr. Jones—"I do."

Mr. Backus—"Do you read the Bee?"

Dr. Jones—"I do."

Mr. Backus—"Well, then, you know what the charges are."

Dr. Jones—"I noticed that the Bee states that the information did not come from any member of the board. Mr. Brown says he did not give it, and I don't see what right we have to ask the Bee reporter where he got his information."

"The chief question is, are the charges true? It is an easy matter to find that out, and I move that a special committee be appointed to investigate and report on this matter."

President Parsons—"Any second to that motion?"

There was no second, and the board apparently is willing to let the case go by default.

Two other resolutions introduced by Mr. Backus instructing the manager to prepare for presentation to the board a full and complete accounting of the assets, liabilities and general condition of the department received no seconds, and were after some discussion allowed to drop.

Mr. Greene thought it would entail an enormous amount of work which in the present reduced condition of the clerical force would be almost impossible. The president's annual report, which would soon be forthcoming, would give full details.

President Parsons agreed with this view. The manager, he said, was now hard at work preparing just such information, and the board would have it just as soon as ready.

Manager Heston presented a report of the number of mixers, etc, in use at present. Following is a summary:

Cook stoves	4,607
Heating stoves	4,852
Furnaces	156
Laundry stoves	60
Total number of mixers	9,675

The following is a summary of contracts and connections:

Contracts using mixers	5,304
Contracts using meters	218
Total	5,522
Contracts but no connections made	579
Contracts declared void for lack of lines	113

The final estimate on R. W. Smith's contract for making connections amounting to $759, McMahon's contract for same, $1,350, were presented and referred.

The Kerlin Bros'. final estimate of $41,640, out of which 70 per cent. had already been paid, was presented. The committee on claims recommended that the balance of 30 per cent. be paid.

Mr. Backus suggested that the balance be credited to the account of Kerlin Bros.

Dr. Jones said the city still owed the firm a balance of $2,000 over and above the claim presented.

President Parsons said a statement of the firm's account should be presented before passing on the final estimate, and this suggestion, on motion of Mr. Greene, was adopted.

Another claim of the same firm for $2,200 was similarly referred.

The final estimate of work performed by Graff M. Acklin, amounting to $1,533, was presented and the committee on claims recommended it be paid in gas certificates.

A schedule of smaller claims, amounting to $1,829, was also ordered paid. After the payment of the last schedule a little over $100 remains in the treasury.

The application of the Young Women's Christian association for free gas was rejected.

Kerlin Bros. in a communication called attention to the fact that they have not received any payment on monies received for gas consumed as per contract. Referred to the manager.

The managers of the Day Nursery presented a petition for free gas. President Parsons thought it strange that King's Daughters should ask for charity. Dr. Jones remarked that the king must have a large family. He moved that the petition be granted.

Mr. Parsons did not think it just the thing to give the gas free.

Dr. Jones argued that under the law charitable institutions were entitled to it.

Mr. Parsons said the law referred only to charities operated by the city.

Dr. Jones read the law, and it appeared he was right, as the law covers any charity which relieves the poor.

The matter was referred to the manager.

John Blakely, in a communication, complained that he had been discharged for causes which were unfounded. He asked for an investigation.

Dr. Jones moved that the matter be referred to a special committee to report.

Mr. Backus moved it be referred to Dr. Jones.

The matter was allowed to drop, and was not again referred to during the evening.

Mr. Backus presented a resolution that the superintendent be instructed to measure the rock pressure of all the wells on Saturday, and report the result at the next meeting of the board. Like all Mr. Backus' resolutions, it was not seconded.

Mr. Greene moved that in view of the lull in business to be transacted, that the Thursday evening meetings be discontinued. This was carried and the board adjourned.

TWO DAYS MORE

During Which Dr. Copeland and Associates Extend the $5 Offer.

Positively the Last Opportunity to Those Who Desire to Avail Themselves of the Rate of $5 a Month for Medicines and Treatment.

One thing should be clearly and distinctly stated at this time. This is positively and unequivocally the last month of the $5 treatment. Patients who desire to take treatment under this offer must avail themselves of it at once. There will be no further extension of time. Copeland and associates have sought to give all an opportunity of availing themselves of this merely nominal rate. They have extended the time three times, and December is the last month in which the offer holds good. All patients being under treatment or placing themselves under treatment before January 1, will be treated at the rate of $5 a month until cured.

OUR CURES ARE PERMANENT.

Read What a Gentleman Says Who Was Treated Last Summer.

Six months ago there was published in Joseph Coombs, who lives at 384 Indiana avenue. Mr. Coombs' case attracted widespread attention at the time, and there all of the Toledo papers the story of Mr. were many to say that the relief he found was only temporary and would soon pass away. Mr. Coombs, now desires to verify his statement of last July, and to testify to the permanency and make still stronger what he then said of his cure. Mr. Coombs said last July:

MR. JOSEPH COOMBS, 384 INDIANA AVE.

"A year ago I had la grippe, and it had left its deadly effects. My head and nose were so completely stopped up as to make it almost impossible for me to breathe. My eyes weak and watery, ringing noises in my ears, a constant hawking and spitting, trying to raise a substance that seemed to close my throat; the mucus would drop from the back of my head to the throat, which was a constant source of annoyance.

"I was pretty near a wreck. Everything I knew for the treatment of catarrh, and every physician I ever heard of I tried to relieve me of my suffering, but with no result. My head has at times, as I thought, come so near bursting that I would cry for 'help,' fearing my mind would be affected by the awful pain.

"In this condition I heard of Dr. Copeland and associates, and concluded to consult them. This I did, and also began treatment, and to-day I am so much better my whole life seems to have changed. I cannot say too much in praise of Dr. Copeland and associates, for they have certainly saved me from a fate worse than death, and let me say again, that as a citizen and a gentleman, I deem it my duty to have my statement made public for the sake of others who, perhaps at this time, are where I was three weeks ago."

And now, six months after Mr. Coombs made the above statement, he says: "I am entirely cured and as healthy as ever I was. That statement of mine was NOT STRONG ENOUGH for the good you have done me. I will gladly see and answer all doubters of your skill and the permanence of your cures."

Mr. Joseph Coombs is employed as night watchman in the Toledo Blade building, where he can be seen and this statement readily verified.

HOW VACCINE VIRUS IS OBTAINED.

The preparation used to produce what we call "vaccination" is known among medical men as vaccine virus, to produce which it is necessary to go through a surgical operation, the subject being a young cow or even a calf. After scarifying the belly of the animal (the parts having previously been shaved) the wound is inoculated with virus from an animal already in use. A sore is thus formed without lasting injury to the beast, and, after a week or ten days, a thin vaccid matter begins to flow from the abrasion. This pus or matter is the vaccine virus of commerce. Goosequills, which have been scraped with a knife until they present a rough exterior, are rubbed in this virus. The virus from one abrasion is sufficient to coat 10,000 quills, which, after being so prepared, are technically called "points." These points, when ready for shipment, look very much like ordinary goose-quills, the virus coating not being visible to the naked eye. There are several persons in the United States who make it a business to supply the rest of humanity with vaccine virus. One of these "vaccine farms" is at the agricultural college, Columbus, O.; another at Fond du Lac, Wis.; the third, and also the largest in the world, in New Jersey, the property of Dr. E. A. Lewis.—St. Louis Republic.

A remarkably ingenious and simple orange and lemon peeler is now being introduced by which it is claimed that 1,000 orange and lemon peeler is now being in ger or glove or losing a drop of juice. The peeler is a piece of wire, nickel-plated, very much in the shape of a button-hook, but with a tiny blade let into the inner bend of the hook. When the point of the hook is drawn into the fruit it slides between the pulp and the peel without danger of entering either, while the blade divides the peel easily, and rapidly, after which it may be removed without trouble.

The Arduous Search for Orchids In a Terrible Country.

With great pleasure I announce to you the fact that I arrived here yesterday with my plants in the finest order, and you will get striking novelties at last from this terrible country, and you will have every reason to be satisfied. It was the best time to collect the Elephant Moth Deudrobe. They had just finished growing, and some were in full bloom, and oh, what a glorious thing it is! I forget all my troubles when I saw the first on some rocks near the huts where I was staying, where they grow on the bare limestone among a great number of human skulls and bones.

The natives do not bury their dead, but put them in a kind of coffin, and then place them on these solitary rocks, which stand scattered about the shore or beach and which can be reached only at ebb tide. Here in these rocks the plants grow most luxuriantly, exposed to the full sun, and when the weather is rough they often get the spray of the sea water. At first the natives did not like the idea of collecting the plants of those rocks; they were afraid the souls of the departed, whose bones were lying there bleaching in the sun, would resent it; but when they saw the gorgeous handkerchiefs, beads, looking-glasses, and my brass wire I offered them for the plants, they did not trouble themselves any more about the souls of their ancestors, but boldly went and rooted out every plant to be found.

The majority of the plants, however, come from places where no bones were found. The plants grow chiefly on these solitary, much honeycombed, limestone rocks, always exposed to the sun, or getting only a very little shade during a part of the day. They also grow on trees in the Ficus groves, more inland, although very sparingly. I found the big specimens on the highest trees in the dense jungles, where it is very rare, and I only saw but a few on the very highest trees. I should think in cultivation it will require plenty of moisture while growing, and a culture like that suitable for D. nobile.

In size and coloring it varies as much from the ordinary D. Phalaenopsis as Dendrobium Wardianum from D. crassinode; the largest flowers measure 4 1-2 inches across, none measuring less than 3 1-2 inches. I saw a few plants with branched spikes, but this seems only excess of strength; the spikes are generally from 20 to 35 inches long; on some I counted up to 25 flowers. The color is very variable, varying from pure white to dark purple-red, and some are differently colored and variegated, but bright and clear. The flowers last a long time, individually eight weeks, and during my stay of three months I saw many plants flower in April, May and June. I only hope and wish I may get safely back again and that the plants will arrive in good condition.

Going by myself there would mean endangering my head very much, so I thing it is better to wait till next year, when I can go with a trading expedition. On my arrival here I had to pay $201 as a shipwrecked man for my passage, for which I told you they at first demanded $280; now on my telling them it was very mean to demand anything for a shipwrecked man, they gave me 30 per cent. deduction. Well, there is no doubt these people (the European traders) are the meanest people on earth, and I do not like them, and shall be glad when I can travel somewhere else. The natives are not bad, only somewhat troublesome. They think no more of killing anybody than your cook does of killing a fowl; but they would not easily attack a Dutch trading party, knowing how well armed they are, especially when one takes a little care not to quarrel with them. They go almost entirely naked, and are the finest race of savages I have seen up to now.

One of their idols, the god with the golden eye, I had to place in a case to accompany the plants and take care of them on the journey. The savages wanted this, and I did it to satisfy their superstition—Gardener's Chronical.

GAIT OF THE INDIAN.

Swift and Noiseless He Does Not Seem to Crush a Fallen Leaf.

The Indian hunter has a distinctive gait. His toes, either straight before him or pointing inward, cover the center of gravity. His hips sway slightly to the stepping side, and his rear foot is not exactly lifted, but rather peeled off the ground just enough to clear the surface and settled in its new place before the weight comes on it. He does not swing his shoulders, nor walk with a spring, nor plant his foot with a shock, as the white man does.

If the Indian were turned to stone while in the act of stepping the statue would probably stand balanced on one foot. This gives the limbs great control over his movements. He is always poised. If a stick cracks under him it is because of his weight, and not by reason of the impact, says the Forest and Stream.

He goes silently and with great economy of force. The muscles have less strain on them and do not tire so soon. Sometimes it seems as if they never tired. He treads through woods and swamps and down timber with no noise except the rustling of the grass and leaves disturbed by his passage. His steady balance enables him to put his moving foot down as gently as you would lay an egg on the table. You could not hear the thud of a footfall if you listen a week.

The gait is not elastic nor springy nor handsome, and it even makes the man seem bow-legged. Put the same person in leather boots on a floor, and you would truly say that he stumped along, but in moccasins on a hunt, he does not walk, he glides.—New York Journal.

CURRENT TOPICS.

Two years ago university extension was but slightly known in the United States. To-day it is organized in 19 states and in 81 cities and towns, and the college or university which does not lend a helping hand soon finds itself classed as antiquated and fossilized. The list of lecturers offered by the instructors embraces almost every topic, from educational psychology to fertilizers and their uses, and it has been remarked that the lecturers come back to their regular work in the class room with a renewed freshness and vigor which springs from new associations and relations. The reflex action of this work upon professors and tutors is extremely valuable in every aspect of the case.

The scheme deserves the enthusiastic commendation and hearty support of the people of the whole United States. It has been our proudest boast that our common school system has resulted in a general diffusion, not only of intelligence but of education, at least up to a certain point, and that it has removed in a great measure the stigma of illiteracy of which any nation should be ashamed. University extension aims not at making every one in the United States an astronomer or a skilled economist or a profound metaphysician, but at offering facilities for acquiring a higher education to all who are fitted for it and who will avail themselves of the opportunity. The assertion that a nation may be too highly educated is fallacious in the extreme, for if education is of value at all a people cannot be hurt by over-indulgence in it, since it is neither a stimulant nor a narcotic, but a healthful and life-giving food, adapted to all sorts and conditions of men.

Cape Colony will make an ambitious display at the world's fair. One of the features will be a miniature diamond mine, where the whole process of washing, sorting, cutting, and polishing will be shown in operation. Among other things exhibited there will be ostrich feathers, wool, mohair, buchu leaves, everlasting flowers, argol, aloes, crocidolite, tobacco, gum arabic, hides, Kafir ornaments and weapons, ivory and horns. The president of the Orange Free State, the governor of Natal, the president of the Transvaal and the administrators of Bechuanaland and Basutoland have promised to make contributions.

The first annual report of the government board on geographic names, says the Philadelphia Record, which has been transmitted to the senate, shows that the decisions of the board on all unsettled questions arising in the department concerning the orthography and nomenclature of geographical names have been accepted as the standard authority in such matters. In setting questions of difference of spelling the board has proceeded on the theory that the name which is in common local use at present should be adopted. A number of the nations of Europe are engaged in the regulation of the orthography of geographical names, seeking chiefly to secure uniformity in the transliteration of aboriginal names written in characters other than Roman. As the system of transliteration upon which they have practically agreed has been adopted by the government board, the United States are in harmony in this matter with the rest of the civilized world.

The eighth annual report and balance sheet of the Allgemeine Electricitats Gesellschaft, of Berlin, has just been published. The company is not only a great manufacturing concern, employing upwards of 1,500 hands, but it also invests large sums of money in a variety of electrical undertakings. The net profits of last year were $559,140. Out of the profits the company has last year considerably augmented its plant, tools and buildings. The output of incandescent lamps made by the Allgemeine Electricitats is now 1,000,000 per annum. In addition to several new types of dynamos, a series of different sizes of electric motors have been developed during the past 12 months. A concession has been obtained for utilizing waterfalls on the Rhine, aggregating 12,000 horse power, which will soon be transmitted electrically to important industrial centers in Germany.

A saving of 12 hours in the transmission of mails has been effected by the establishment of sea postoffices on mail-carrying steamships. The mail received by the Havel from Bremen, on which, by arrangement with the German postoffice department, German and American postal clerks are employed, was received ready for distribution, and was sent out from New York 12 hours ahead of the mails of the Majestic, on which no postal clerks are employed.

Is there not something in the following, from the St. Louis Globe, worthy of thought in this too hurried time of ours? More rows are caused in the business world by indigestion than even the doctors know anything about. Our business men rise in a hurry, eat breakfast in a hurry and then hurry down town. Toward 1 o'clock they rush out, get a dose of underdone beef, the half of a mince pie and a cup of strong coffee, and hurry back to their offices, feeling as though they would like to fight somebody. Some one comes in who has lunched on the same style of vituals and in the same haste to discuss a plain business proposition. The two are feeling cross and sour and get to quarreling. Each think the other a crank, and both are wrong. It was the lunch.

The rapidity of the introduction of electric transit for street railways is well illustrated in the case of the city of Milwaukee, which in the tables prepared for the census by Mr. Porter, based on statistics collected in 1889, is credited with 46 miles of street railway service, of which 40 miles were operated by horse power and six by steam. To-day, we are assured on the authority of the Milwaukee Sentinel, there are 105 miles of passenger street railways in Milwaukee, of which 75 are operated by electricity. By next summer there will have been completed 160 miles, all operated by electricity. The 70 miles of street railway track in the city of Lynn, Mass., are to be equipped with electrical motors in 1892, and it is proposed to unite Boston, Lynn, Salem and Newburyport by the building of new electrical lines or by the change from horse-power to electricity on lines already built.

At the recent meeting of the Indiana commandery of the Loyal Legion held at Terre Haute, Col. Thos. H. Nelson made a speech, in which he said that the Chilians were not always unfriendly to this country, but that, on the contrary, during civil war their sympathies were warmly enlisted on the side of the union. He was then our minister at Santiago. News from this country was received by fortnightly steamer from Panama. After the news of Grant's final advance in the spring of 1865 had reached there, anxiety to hear the next news became very eager. It happened that the next steamer due did not arrive on time. Col. Nelson said that after sitting up till a late hour waiting for news of its arrival, he went to bed to sleep, but about 3 o'clock was awakened by the strains of a band playing Hail Columbia in front of his residence, by the shouts of a crowd and the discharge of artillery. Going out on the balcony to find out what was the matter, he was hailed by the president of the republic, who shouted to him that Richmond had fallen, Lee had surrendered and the war was over. The next morning there was a grand procession, in which the president, the members of his cabinet, the congress and all the troops about the city took part, ending with a service in the cathedral, in celebration of the final success of the union arms.

SOME SPICY CURRENT TOPICS

Of Local and Neighborhood Interest.

Notes and Comments on Incidents Occurring Daily—Prepared for Readers Who are Hustled for Time.

BOOTBLACK FIGHT.

Henry Sirlman, a big bootblack, thumped Curtis Collins, a smaller lad, yesterday afternoon, and was arrested. This morning in police court he was fined $5 and costs for assault and battery.

FELL DEAD.

Henry Bohn, a man aged 74 years, living at the corner of Galena and Ontario streets, fell dead of heart disease last evening while pumping water at a well in his yard. Coroner Roulet held an inquest and rendered a verdict according to these facts.

CAUGHT STEALING JUNK.

John Chase was taking home a wheelbarrow full of old iron, brass and junk last evening, when he met a policeman who took him in. It was discovered that the stuff had been stolen from the Hocking Valley railroad, and in police court this morning he was fined $15 and costs.

NO BIDS FOR BONDS.

As stated in yesterday's Bee the council committee on ways and means was called for last night, but as no bids were received for any of the bonds, and the joint session proved a stronger attraction, no meeting was held. This also defers the controversy between Auditor Walker and Contractor Miller until the next meeting of the committee.

DOGS, BEWARE!

A fine dog belong to a farmer was run over and dragged several blocks this morning by an electric car on the Belt line. The dog died without a murmur, and it was some time before it was known what caused the unusual jar in the car. The conductor and motor man investigated and found the unfortunate victim of the accident wedged in in such a way that it was difficult to release him.

HOLY INNOCENTS' DAY.

The various Episcopal parishes united yesterday afternoon at Trinity in a carol service. There was a very large attendance, and a profitable time was had. The exercises consisted of the singing of selections especially prepared for the occasion, and the recital of prayers and scriptural lessons appropriate to the occasion. The rectors were present and gave their efforts to the success of the observance.

COULD NOT CONVICT.

Cynthia Conger, who was arrested a few days ago for keeping a house of ill-fame on Canton avenue, near Shepler street, was tried in police court this morning, but the evidence was very weak and she was discharged as soon as the state finished its evidence, without any arguments on either side and no evidence for the defense. This disposition of the case necessitated the dismissal of the cases against a man and woman for residing and visiting the place.

INSTALLATION AND PARTY.

The annual installation and reception occurred at the Masonic temple last evening, under the auspices of Rubicon lodge. These gatherings are always a source of pleasure to the members and their families, and the affair of last night did not prove an exception. The first part was taken up with the installation of officers, whose names have already appeared in the Bee, and following this a few hours were spent in dancing. Refreshments were served in the banquet room. It was after midnight when the company broke up.

MRS. BAILEY'S CHALK TALK.

The "Chalk Talks," by Mrs. Bailey, of Chicago, at the First Baptist church yesterday were most enjoyable entertainments and worthy of far better patronage than they received. Mrs. Bailey came here under the auspices of the Non-Partisan W. C. T. U., and in the afternoon her talk was principally to the children. Mrs. Bailey is a delightful speaker, and illustrates her remarks with crayon sketches drawn while she talks. Her lecture in the evening was of the same character, but even more interesting. While in the city Mrs. Bailey was the guest of Mrs. James Watson, Franklin avenue.

ANOTHER MACCABEE TENT.

A new tent of Knights of Maccabees was installed Sunday night by Deputy N. N. Tripp, of this city. The tent was named Baron De Hirsh tent of Toledo. The following officers were installed:

Record keeper—A. M. Goldberg.
Finance keeper—M. Jacobson.
Physician—Dr. C. H. Mills.
Sorg—Meyer Levi.
M. A.—Jacob Obst.
First M. G.—David Jaffer.
Second M. G.—Henry Browarsky.

FOR U. S. MARSHAL.

The Youngstown Vindicator has the following relative to one of the candidates for Ben Wade's shoes as United States marshal:

"George Wyman, of Cleveland who has been the chief deputy under United States Marshal Wade, of this district, has been in the city soliciting the aid of prominent republicans in order to secure the appointment of United States marshal soon to be made in place of Gen. Wade, the democratic incumbent. It is said that Gen. Asa Jones and others will favor his candidacy."

Mr. Wade's term expires in February, and the candidates will soon begin to hustle in dead earnest.

LUCAS COUNTY CHILDREN'S HOME.

About seventy-five children welcomed Santa Claus at the Home on Christmas eve, and with thankful hearts received the pretty gifts he brought them. A musical and literary program was enjoyed. The Christmas of 1891 will long be remembered by those little ones for the joy it brought them, and to those who so liberally remembered them through Santa Claus they extend the following card of thanks:

The Kerria children at the Lucas County "Home" extend thanks to the G. A. R. and W. R. C. for so kindly remembering them on Christmas. The "Home" children also return thanks to the "Ys" and other friends for their generous donations.

IDEAL COUNCIL, N. U.

At its regular annual election held last evening, Ideal council, No. 231, National Union, chose the following list of officers for 1892: President, Geo. E. Bell; ex-president, W. J. Chase; vice-president, E. W. Gage; speaker, A. Gassoway; secretary, A. W. Bruce; financial secretary, H. M. Kelsey; treasurer, W. A. Eggleston; chaplain, T. B. Campbell; usher, C. M. Edson; S. at A., W. Adams; doorkeeper, R. A. Whyte; trustees, S. A. Hunter, Geo. W. Boos and O. A. Browning; delegates to cabinet, R. F. Worts, W. V. McMaken and C. A. Thatcher.

The selection was harmonious, the members proud of the past and enthusiastic for the future. President Charlesworth and other senators were present and favored the council with encouraging and commendatory remarks.

The trustees have engaged G. A. R. hall for next year, and the installation of officers will occur at that place on January 14. The council closes its year with a membership of 478.

SUCCESSFUL RENTING OF PEWS.

The rental of pews of the First Congregational church last night was largely attended, and the bidding for choice was quite spirited. The premiums ran higher than ever before in this church. The aggregate of premiums amounted to $1,100, and the highest premium paid for choice of pew was $50, by J. G. Mitchell. Over 140 pews in all were taken, and the aggregate amount of assessments and premiums on pews taken at the letting last evening amounts to nearly $9,000. This state of affairs cannot fail to prove satisfactory to all concerned, and assures continued prosperity to this old church organization.

SUNDAY FUNERALS.

The Practice of Sabbath Burial Meets With Much Opposition.

Baltimore, Dec. 29.—The subject of Sunday funerals called forth a very lively discussion at the meeting of the ministerial union yesterday.

The practice of having funerals on the Sabbath was unanimously condemned and a resolution was adopted expressing the sentiment of the union that funerals should not be held on Sunday except in cases of actual necessity.

It was also resolved that all the ministers should announce from their altars at the earliest opportunity that they would refuse to attend Sunday funerals.

A letter was received from Vicar-General McColgan expressing his sympathy with the movement, and resolutions were also read which had been adopted by the Funeral Directors' association, the Hackmen's union and the various cemetery companies, all expressing sympathy with the movement and promising co-operation.

HAD A BIG TIME.

The Sunday School of the Second Baptist Church—Prize Scholars.

The Christmas entertainment given by the Second Baptist Sunday school last night was a perfect success. Weber's hall was filled with people. The stage, profusely decorated with flags, bunting and evergreens, the girls, with white, pink, yellow and red tarleton dresses, together with the costumes of St. Nicholas and King Christmas, made it a very beautiful sight.

Thirty-three elegant gold medals were presented to scholars who have been present every Sunday during the year; their names are as follows: Alfred Stein, Chester Lamb, Lizzie Bihn, Bert Chollett, Harry Chollett, Cora Chollett, Maggie Bennett, Will Bennett, Louis Burr, Clarence Myers, Olive Winchester, Adelle Jones, Luther Whitney, Rob Widner, Jos. Widner, Louise Deutscher, Chris Toe, Joanna Toe, Hattie Nesbitt, Ethel Carver, Will Frazer, Emma Smith, Edith Lamb, Nettie Smith, Frank Smith, Geo. Wenrich, Norman Elliott, Rob Elliott, Roger Farley, Ida Farley, Earl Butler, Herbert Orr, Louis Owen.

The committee who had this entertainment in charge was composed of Miss Ollie Gillum, Mrs. Frank Consaul, Mrs. George Carver, Mrs. Butler, Miss Jennie Consaul and Mr. Whitney.

FRANK KING WILL PRESIDE

Over the Destinies of the Produce Exchange the Coming Year.

Yesterday the members of the produce exchange, or at least the faction in control went into caucus and nominated officers for the ensuing year. As such a nomination is tantamount to an election, it is safe to say that the following nominees will rule the produce exchange during 1892:

President—Frank I. King.
First vice president—E. L. Southward.
Second vice president—F. O. Paddock.
Secretary—D. B. Smith.
Treasurer—W. T. Carrington.

It is a handsome compliment to Mr. King, and one well deserved, that he is the unanimous choice of both parties. In fact the opposition will not put a ticket in the field as a compliment to the hustling young business man. Frank is the most popular man on 'change.

DR. RAWSON DEAD.

He Passed Quietly to the Great Beyond At the Age of 92.

Findlay, O., Dec. 29.—(Special)—Dr. Bass Rawson, the last of three brother physicians, and one of the oldest residents of northwestern Ohio, quietly passed away at his home in this city last evening at the advanced age of 92 years.

He was born at Orange, Franklin county, Mass., April 17, 1799. He has seen Findlay grow from a backwoods village to a busy manufacturing city of 25,000 people.

LOCAL HAPPENINGS.

J. V. Boice, a junk dealer at the corner of Beach and Huron streets, reports that a quantity of rags were stolen from his place yesterday.

The Christmas collection at the Immaculate Conception church amounted to over $500. The new church receives a benefit by this contribution.

I. W. Dornsief leaves on Friday as a delegate from Plasterers' union, No. 7, to the Plasterers' national convention to be held in Omaha next week.

A gentleman flashed this item on the Bee this morning: "There is no doubt that Noah had beer in the Ark, for the Kangaroo went in with hops and the bear was Bruin."

Marriage licenses were issued to-day to Charles T. Smith and Eva Lanfean, W. C. Boschard and Myrta Houghton, S. Geake and Hanna Walden, John A. Grant and Nellie P. Binnie.

ATTENTION, COMRADES.

There will be a special meeting of Forsyth Post to-morrow night, December 30, for inspection and receiving 30 recruits. All members of post are requested to appear in uniform.

CHAS. WITTICH, Commander.

CARD OF THANKS.

We desire to thank our many friends for their kind assistance and sympathy shown us in our late bereavement; also, to express our heartfelt thanks to the railroad boys for their floral offerings.

ANOTHER REVERSAL.

Technicalities Good Picking for Lawyers

In Police Court—Judge Sala Refused to Charge as Requested, and Judge Harmon Says He Must.

Judge Harmon this morning heard the petition in error in the case of Gregorek against the state.

Gregorek was arrested and convicted some time ago in police court on the charge of selling liquor on Sunday, for which he was fined $35 and sentenced to the workhouse for 30 days. The case was appealed to the common pleas court and Judge Harmon set the verdict aside and reversed the judgment of the police court.

The defendant during the trial in police court presented a number of requests to charge to the court, to be submitted to the jury before the argument. This Judge Sala refused to do. The case was appealed on this point being raised, with results as stated.

Rev. Charles Scadding and C. F. Curtis, left yesterday for Cleveland to attend a missionary committee meeting of the diocese.

Mrs. Seney and Mrs. Groff, of Tiffin, and well known in Toledo, gave a charming card party Saturday evening for Mr. and Mrs. Will Bates, of Dayton.

Mrs. E. P. Breckenridge gave a reception yesterday afternoon to a large number of friends. The decorations were very artistic, and were under Mrs. Suder's supervision. The reception was one of the prettiest of the season.

Mr. Rowland Mitchell gave a delightful dancing party at the residence, corner Jefferson and Tewenty-second streets, last evening. The decorations were holly and flowers, and the event was brilliant one for the young society people.

Miss N. C. Kellogg, of Toledo, who has been spending the Christmas holiday with Norwalk friends, returned home this afternoon. Mrs Cone and Mrs. Smith, of Toledo, were in the city yesterday visiting their parents, Mr. and Mrs. S. M. Fuller.—Norwalk Reflector.

The election of officers of the Ladies' Aid society, No. 56, of Mark E. Sibley camp, No. 18, S. of V., will take place to-night at G. A. R. hall. A public installation of officers and a social entertainment will be given at the January meeting.

Mrs. Oliver Rodgers, of Madison street, gave a high tea last evening from 5 to 8 o'clock in honor of Mr. and Mrs. Shepard and Mr. and Mrs. Bodman. Mrs. Rodgers was assisted by Mrs. James Rodgers, Mrs. John Berdan and Mrs. Will Baker. The house was prettily decorated with palms, holly and flowers by Mrs. Suder, and the occasion was a very delightful one.

Mrs. Miller's Sunday school class gave an enjoyable entertainment at the Fifth Presbyterian church last evening. Miss Hattie Gasser and Miss Whitney gave several soprano solos which were charmingly rendered. Mrs. Miller recited a number of pleasing selections and the Cleveland Glee club furnished some good music, although a number of the club were ill and could not be present last night. The entertainment was given for the benefit of the new church.

The Bee building contains the finest offices in the city. They are now complete and can be seen by any who are interested in looking them over.

Who offered Griffin $5,000 to vote for Sherman?

John Sherman's presence in Columbus will strengthen his friends and confound his enemies.

Mayor Emmick was vigorously rebuked by the council last night. To-morrow night the police board will spank him.

It is very evident that the natural gas trustees do not want their business investigated. Still, a great deal of sunlight on the business would be beneficial to taxpayers. The plant has been juggled to ruin.

The very best business ability to be found in Toledo is now demanded in the management of the city natural gas plant. If Mayor Emmick is big enough man to be mayor of Toledo, he ought to recognize this fact.

The Ohio senatorship teter board is still see-sawing. By the time the game is over honest republicans will wish, if the half that has been told is true, that Ohio had two democratic senators instead of one.

The dreadful things that the Sherman men and Foraker men have said about one another will be useful to file away for reference in future campaigns. They are even more telling than "democratic lies."

St. Paul is alive with generous rivalry and reaches after greater honor than hath come to her twin sister. She guarantees a fund of $220,000 for convention purposes and has already a scheme for a completed building, to tempt the democracy to come that way for the great meeting.

The much-advertised millionaire will beg for less notoriety if he is to become the target for cranks. George W. Childs, of Philadelphia, escaped the assassin's knife Saturday through the intervention of his clerks. It looks as if the substructure for "Caesar's column" might be in process of construction.

Mr. Griffin appears to be in a very deep hole in the bribery story. Two reputable citizens make affidavit that he did say he was offered $5,000 to vote for Sherman. Griffin says he didn't make such a statement. The presumption is that he did say so and is now trying to hedge, having discovered that the yarn has reacted upon his friend Foraker. Griffin is making some bad breaks and this is one of the worst.

It was quite appropriate that Vanderbilt, Depew, Webb, and other owners and officers of the N. Y. Central should attend the funeral of the victims of the Hastings accident. If railway companies would be sufficiently impressed by such solemnities to compel them to more thoroughly equip their roads and better enforce laws for the safety of lives entrusted to their care, the sorrowful events would be of less frequent occurrence.

What is the reason the United States has such murderous times with its Indians, while just over the border Canada gets along with its tribes with so little trouble? Next June 7,000 Christian Indians will be brought together at Kamloops, a village in British Columbia, for a holiday time and for convention to consider educational and other matters pertaining to civilization. There is but one answer to the question asked—they have not been robbed and cheated by the government that pretends to protect them.

Chicago knows so much that is will soon have to draw lots with Boston to see which city is entitled to first place as knowing it all. Now comes one Mr. Daggett, a Chicago citizen, who has found the cause of grip, which the medical faculty have been vainly trying to get at. Mr. Daggett writes Mayor Washburne:

"Put out your electric lights and stop your dynamos, or the grip with its complications will kill your people faster than you can bury them. The use of electricity is the cause of the grip, and there are scientists ready to prove it."

M. Paul Deschanal, appointed by the French government to investigate social questions and conditions of laboring men in this country, has arrived in New York. He will pay flying visits to our principal cities, from Boston to San Francisco, and will probably return to the country that sent him as wise as he came. There are better ways of investigating economic conditions than by junketing tours. Our own expensive commission has just returned from a similar trip through European countries, and if the commissioners have done anything, except spend a liberal appropriation, no one here is aware of it.

Why should there come such protest from the organs whenever it is proposed to investigate the pension department management? Think what glory it would be to the department, its chief, and army of lawyers and official beneficiaries, and what confusion to the investigators if charges of corruption and inefficiency were proven groundless. The innocent court investigation instead of crying out against it. Gen. Slocum, a Grand Army man, says, in an elaborate paper in the January Forum, that it is time for the veteran soldiery, out of self respect and in self defense, to call a halt and demand investigation of the claim-ageat and the shark-lawyer processes.

If President Harrison does not know how bad a man is Judge Woods of Indianapolis, his attention is respectfully directed to the Indianapolis Sentinel of Saturday last. That journal, in addition to its own continued exposure of the unfitness of the appointee, gives five columns of Saturday's issue to republishing adverse opinions upon the appointment expressed in other newspapers, east, west, north and south, republican and democratic. Of the defense of Judge Woods by the Indianapolis Journal the Sentinel says:

"In order to save a lot of ballot-box debauchers from trial in 1889 Judge Woods had to go back on his own decision in the Coy case, although it had been affirmed by Justice Harlan of the U. S. supreme court and then by the full bench of the supreme court in an opinion written by Justice Miller. And now the Journal seeks to defend him by telling its readers that he was bound to follow a contrary opinion of Circuit Judge Gresham. This apology is about as bad as the original offense.

REPORT ON INDIAN AFFAIRS.

The report of the Secretray of the Interior gives the opening chapter to Indian affairs, felicitating the country upon the excellent work done by the administration. "The peaceful and efficient overtures of the government have been met in an intelligent spirit by the different Indian tribes visited by the Commissions and for valuable considerations large portions of their reservations have been ceded for settlement." From perusal of these pages, one would judge that the government was the good guardian of the red men, that there were no shameful debts of the past yet unpaid and no chicanery in present-day dealings. "Peaceful and efficient overtures" by the government are certainly very commendable. What right or possible excuse the government could have for making warlike overtures to the Indians who have been systematically robbed by it, is beyond guessing. In the table of "agreements made with the Indians during the present administration," the Choctaws, to whom the government is still indebted for purchase money for lands taken sixty years ago, are down for millions of acres more that go to make up Oklahoma. What confidence can the Choctaws have in an "agreement" made in Washington? A review of this subject by Hon. James Hopkins, in Belford's Monthly, was recently given in the Bee. Year after year the "case" which was a simple one of debt and credit was dragged through the courts, and new contracts and promises made, never to be fulfilled, but with charges taken out of the money due the Indians.

The controversy over the Cherokee outlet recalls the fact that in 1835, that people ceded to the United States valuable lands, and payment was delayed year after year until the honest accumulation of interest must be met somehow. As with the Choctaws, the "case" (when there was none) went into the Senate which decided that there was due the Cherokees the original sum of $189,422.

In Secretary Noble's report concerning the Cherokee Outlet it is said: "it is not necessary to enter upon an extended history of the title to these lands. The area to be purchased is about 6,022,754 acres. Adhering to the original price, $1.25 per acre, and deducting amounts already chargeable against these lands ($728,289.46) the sum to be paid will be $7,113,846.93. A formidable looking sum, but the old plan of double dealing shows a way out. There are too many ways for the present administration to squander money when the treasury is already low, to admit of such a drain as that, even if it be an honest debt. So the old tactics are resorted to, it is taken into the courts where the poor Indians always get tangled up and lose their footing, and out of their property the "charges" are paid and by the decision of the courts they must abide.

The history of the dealing of the United States government with the Indians is one of the darkest pages in the whole book, and the story of the late uprising of the Sioux, which is very nearly forgotten in the lovely-sounding report, adds no bright lines to the old chapters. It's exasperating to an honest nature to read the gentle and pretty things that are said, knowing the shameful truths left out. It is written "No complaint for unjust treatment from any of these tribes has reached the Department." The table of "successful agreements during the present administration" has too many contradictory "notes" to warrant the presented conclusions. The report is "carefully" prepared and is an apt illustration of what a fine piece of work may be done by practiced manipulation.

The Size of Them.

Edwin Arnold says: "Everything is possible to women. I do not believe in their inferiority." Certainly; a man of Mr. Arnold's size can afford to say this. It is only your little, insignificant men who try to keep women in an inferior position and argue that such is their sphere.—Indianapolis News.

A Record-Breaking Year.

This seems to have been a sort of record-breaking year. Horses have trotted faster in the same time during 1891 than ever before; trains have run faster and further; ocean steamships have made quicker trips; crops have been bigger and prices better, and manufacturers have prospered as never before.—New York Press.

He Certainly Needs It.

The out-of-the-way corners of the earth are getting a good deal of attention just now. Chili, Bulgaria and Gilgit occupy the minds of students of international politics and the man who reads the newspapers wishes he had kept his old school geography.—Chicago Times.

An Alias for Mr. Dana.

"After Cleveland, what?" inquires the esteemed St. Joseph Gazette. It may hardly be the proper thing to refer to Mr. Charles A. Dana as a "what," but he is the principal individual after Grover.—Washington Post.

Why, Certainly!

A republican organ advises congress to "go slow with Arizona and New Mexico." Why, certainly. Are they not guilty of being democratic territories?

WESTMINSTER CHURCH.

Annual Meeting Last Evening—Proposal to Remove to Another Locality.

The congregation of the Westminster Presbyterian church held its annual meeting last evening.

The reports of the various standing and special committees were received.

With regard to the matter of moving the location of the church, the committee reported an option on a piece of property in the Seventh ward, but nothing definite was accomplished. This project has been agitated for some time by members living in the Seventh ward, who are determined to have a church in their locality. They argue that the Westminster and First Presbyterian churches are located too close together to prosper. If the Westminster refuses to combine with those interested in this project, the congregation of the First Presbyterian church will be appealed to.

Officers as follows were elected:

Trustees—Frank Janes to the unexpired term of William H. Bellman, deceased, Milton Taylor; secretary, A. L. Smith; treasurer, M. W. Day.

GLADSTONE IS EIGHTY-TWO.

The Bells of Hawarden Ring Out the Birthday.

London, Dec. 29.—The bells of Hawarden church rang merrily to-day in celebration of the eighty-second anniversary of the birth of the Rt. Hon. Wm. Ewart Gladstone, who was born December 29, 1809.

Many messages of congratulation were sent to Mr. Gladstone's residence at Hawarden, in spite of the fact that it was known that they would not be forwarded to Biarritz, where Mr. and Mrs. Gladstone and a party of friends are still stopping.

DESERTED FORAKER.

Canton, O., Dec. 29.—Representative-elect Thomas has deserted the Foraker ranks and this afternoon announces that he will support Sherman for United States senator. The announcement of the decision was received here with great surprise.

JONES IN POLITICS.

Pittsburg, Pa., Dec. 29.—R. F. Jones, who was chairman of the national republican committee in 1884 and who is a close friend of James G. Blaine (will seek election as a delegate to the Minneapolis convention from the Twenty-third congressional district.

MENTIONED ON THE STREETS.

That leap year parties will soon be in order.

That good houses to rent are very scarce in Toledo.

That Coroner Beckwith is aching to begin his duties.

That the boys are getting ready to swear off on Friday.

That an ice factory would be a paying industry in Toledo.

That to be a gas trustee is greater than to be a sidewalk inspector.

That Toledo has a very much Pittsburg appearance on a damp day.

That Senator McConica has taken to writing letters. Foolish man.

That there is some complaint about the running of policy shops in the city.

That cold spells are not desired at too rapid a gait by city gas consumers.

That Sherman men claim Foraker will withdraw before the caucus is held.

That the Griffin-Brown controversy gives the senatorial squabble new life.

That some good strings of fish are being taken through the ice at Ten-Mile creek.

That the police board is to have a collar-and-elbow tussle at the meeting to-morrow night.

That Capt. McMaken drills the Cadets on the new tactics every time he catches two of them together.

That Toledo will be represented in the inauguration parade Jan. 11 by military and civic organizations.

That Charley Gates is devoutly thankful that Christmas is over, and cheap rates have subsided for a few days.

That there appears to be a material disagreement between Mayor Emmick and his fellow republicans in the city council.

That some of the Consolidated conductors do the handsome thing of calling out the names of the streets as they reach them.

That it will not be a great while until the water works crib will have to be moved up the river on account of the sewerage.

That the action of the common council last night is another illustration of the truth of the saying, "There's many a slip." etc.

That General Passenger Agent Hall, of the Wheeling & Lake Erie railroad is among the best posted passenger men of the country.

That by the time the C., J. & M. railroad gets out of its legal entanglements there may or may not be anything of the institution left for the bondholders.

That clerks have been kept busy exchanging goods which were purchased at the Christmas time by persons who did not know sizes, tastes, and the like.

That the beloved constituents of the Lucas county delegation to Columbus have not yet been given a chance to show their "sentiments" on the senatorial question.

That it appears to a disinterested observer that Reynold Voit has not sufficient grounds yet to resign his position at the glass works to accept the gas trusteeship.

That the republican senatorial fight has reached the boiling point and the public may be prepared for all kinds of charges and countercharges during the next two weeks.

That Frank King will make a first-class president of the Toledo Produce Exchange. While one of the boys, there are few men who have older and wiser heads. Besides, Frank is a hustler.

That as a result of Clarence Brown's resignation as gas trustee, there will be two vacancies to fill in the board next spring, the appointment of last evening only lasting until the April election.

DEATH OF TOM APPLEGATE.

In the midst of the holiday rejoicing comes a solemn stroke of the bell that brings deep sorrow to many near and devoted friends, and most sincere regret to all who knew, socially or professionally, bright, genial, generous Tom Applegate. For so many years he has been editor and proprietor of the Adrian Times, it almost seems that the paper must mourn him like a sentient thing—as a child a parent. His keen, fine mind and fearless, trenchant pen made his journal, and himself, a power in local affairs and in political circles, state and national. Mr. Applegate was English born and came to America in 1851, with his parents, being then twelve years of age. His father became a successful merchant in Rome, N. Y., and there, Tom, as a boy, learned the printer's trade in the office of the Rome Sentinel. From thence to New York City, where he was employed on different metropolitan journals. In 1863, with a relative, G. W. Larwill, he went to Adrian, Mich., and the two bought the old democratic newspaper, the "Watchtower." It was changed in name to the "Times" and in politics to republican, and, later, Mr. Applegate became sole proprietor, always retaining Mr. Larwill as his associate and able assistant. It is not too much to say that one of the brightest newspaper men in the whole country is gone from our midst; ready, progressive, and aggressive, when his good judgment prompted him, his place in his business, in city and in state affairs will be long vacant, and others than those of his kin will long mourn his sad and sudden demise.

A HEAD END COLLISION.

Trainmen Frightfully Mangled on the C., B. & Q.

Thrown Into a Car Loaded With Cattle They Are Almost Trampled to Death.

Aurora, Ill., Dec. 29.—Fireman Ebey and Brakeman Cratty, of Galesburg, are lying at the hospital in this city, seriously hurt, and Engineer Becker is laid up at his home on account of a wreck on the C., B. & Q. railroad, which occurred at Sandwich Sunday morning.

There was a head collision between two freight trains, caused by an open switch. Both engines and 22 cars were thrown into the ditch, badly wrecked.

Two of the cars were loaded with cattle and the three men hurt were thrown among the frightened animals that trampled them nearly to death.

Cratty had his skull fractured and scalp torn nearly off by an angry steer.

ABOUT PEOPLE.

Mounteney Jephson, the Irishman of Stanley's expedition, comes from County Cork.

Threshing machines were J. I. Case's specialty until he went to breeding horses a few years ago.

Probate duty has just been paid on the late M. Grevy's personal estate in England, which was valued at $80,000.

Statesman Ingalls is no longer out of a job. He has been elected president of the Atchison chamber of commerce.

Mrs. Henry Villard has presented to Howard university, in Washington, a bust of her father, William Lloyd Garrison.

Rev. Howard MacQueary, late of the Episcopal church, Canton, will be married on January 14 to Miss Harris, a daughter of Hon. John T. Harris, of Harrisonburg, Va.

The motto below the crest of the Marquis of Allesbury—the spendthrift lord who has secured permission to sell Savernake forest, part of his ancestral estate—is "We have been."

Henry George lived for several years in a house in San Francisco owned and once occupied by a brother of Ward McAllister. It was in this house that "Progress and Poverty" was written.

Purchaser—"Are these corsets warranted?" The clerk abstractedly—she had once been a typewriter girl in the office of a boiler factory)—"Warranted to stand a pressure of 4,000 pounds, madame."—Puck.

Gay Bachelor—Do you think there is anything in the theory that married men live longer than unmarried ones? Henpecked Friend (wearily)—Oh, I don't know; seems longer.—Life.

BUILDING TRADES COUNCIL.

No More Politics in the Organization.

Nomination of Officers—Rules Reported and Adopted—Interesting Session.

At the regular meeting of the Building Trades council last evening the following delegates were admitted from the German Carpenters' union, No. 168: Phil Keip, Adam Sole, John Derbeck, Greger Ezzel, Frank Mabel and A. E. Schrader.

Officers to be elected at the next meeting were placed in nomination.

The following report was made from the committee on rules:

To the Amalgamated Building Trades Council:

Your committee appointed to form rules whereby all trades composing this council will work in harmony, pertaining to the employment of union men on all jobs in Toledo, report as follows:

Art. 2. All men working on any building or job without a card or voucher will be considered as a non-union man, or as in hereafter stated.

Art. 3. All cards must bear the seal of the Council or will not be recognized by union men.

Art. 4. The card when presented must be in good standing, according to the laws of his local.

Art. 5. There shall be a steward appointed on all jobs. The first men on every job shall appoint said steward to examine all cards. In case a steward refuses to report correctly any grievances his local shall be fined $2.

Art. 6. In case a steward be called off a job, he shall appoint a substitute in his place.

Art. 7. Any member whose local is represented in the Building Trades council found working with a non-union man whose trade is represented in the council, shall be fined for the first offense $1; second, $2; third, his local shall be suspended or expelled.

Art. 8. These rules can be amended by a vote of two-thirds of the members present, provided the same shall have been presented in writing at a previous regular meeting.

The delegates to the State Trades' assembly were instructed to present a resolution in the assembly advocating a life and limb law for the protection of painters, carpenters, etc.

An important matter was the adoption of a resolution whereby the legislature will be asked to pass a law giving Toledo a plumbing inspector.

A committee was appointed to draw up resolutions to be presented at the state meeting denouncing the employment of the Pinkerton thugs in the suppression of labor troubles.

A resolution was presented from the Carpenters' union prohibiting Toledo delegates from introducing or participating in any political discussion that may come up at the state meeting. The resolution was unanimously adopted.

At the conclusion of the meeting the members indulged in a social time. Songs by Prior, of the Plasterers, and Rathbun, of the Carpenters, and speeches by President McMahon and Nevitt, of the Painters, were among the selections on the program. Refreshments were procured, and the last session of the year wound up with a general good time.

Causes Some Comment in Railway Circles.

Various Notes of Interest Relative to the Doings Among Railroad People Here and There.

"That was a very neat bluff on the part of the purchasers of 80 miles of Cincinnati, Jackson & Mackinaw track, from Cecil to Greenville," remarked a railroad man who is next to the inside of Mackinaw affairs. "It looks now as though the purchasers had some Mackinaw stock they wanted to dispose of and took this course to boom their own interests. They tied the property way up, put up $15,000 surety, and expected to realize on their stock before time came to put up the balance. You know the rest. When the day came to plank down the cash, it was not forthcoming, and the $15,000 was forfeited in consequence."

Will Select a Candidate.

A general meeting of all the railroad associations in the state has been called to convene January 14 to take some action in the matter of selecting a candidate for the appointment of state railroad commissioner under the new administration. The candidates in the field at this stage are: J. W. Brown, of the Columbus division of the O. R. C.; John McVane, of the Cleveland division of the O. R. C.; C. G. Knight, of the B. of L. E.; A. G. Bodley, of the O. R. C., and William Kirkby, of the Yardmasters.

One of these men will be decided upon, and Gov. McKinley will be urged to make the appointment.

O. R. C. Installation.

The Order of Railway Conductors of Columbus publicly installed officers yesterday. The new officers are: Chief conductor, James W. Brown; assistant chief conductor, Mark Wild; secretary and treasurer, Charles W. Howe; senior conductor, Frank Blair, junior conductor, Decatur C. Condon, inside sentinel, W. W. Elwell; outside sentinel, Henry A. Martin. John J. Mangan acted as installing officer and Garrett Fox as marshal. Interesting addresses were made by Assistant Chief Garrett Fox, H. P. Feltrow, D. C. Clifford and Mrs. Charles Raven, president of the Ladies' Auxiliary.

Will They Combine?

On January 31, representation of the organizations of railway engineers, firemen, brakemen and conductors will be held in New York city. The object of this meeting is to make an effort to perfect a general organization of the different orders. Steps in this direction have been taken before but nothing was accomplished on account of the engineers refusing to join the movement. It is evident that this barrier has been removed or the meeting would not have been called.

The Wabash Into Pittsburg.

It is stated that the Wabash system has completed arrangements to enter Pittsburg over the Pittsburg & Western tracks. The connection is to be made at Defiance and a line 30 miles long will be constructed to connect with the Pittsburg & Western at that point.

A Few Cinders.

W. C. Stith assumes the duties of general freight agent of the Missouri Pacific on Jan. 1, with headquarters at St. Louis.

John J. Byrne has been promoted to the position of assistant general passenger agent of the A., T. & S. F. railroad, with headquarters in Chicago.

W. F. Booth has been appointed acting auditor of the Cincinnati, Jackson & Mackinaw road, to fill the vacancy caused by the resignation of F. S. Anable, comptroller.

L. W. Landman has been appointed to act as special agent of the Central Traffic association at the Ohio state board of agriculture meeting, to be held in this city from Jan. 12 to 14.

J. F. Legge, who formerly had charge of the three divisions of the Baltimore & Ohio railroad centering at Grafton, has been appointed superintendent of terminals for the same company at Wheeling.

The chairmanships of the house committees were apportioned among the several states by the speakers as follows: New York and Missouri, 4 each; Illinois, Indiana, Maryland, Alabama, North Carolina, Ohio and Texas get 3 each; Arkansas, Georgia, Kentucky, Louisiana, Mississippi, New Jersey, Pennsylvania, South Carolina, Tennessee and Virginia, 2 each; Connecticut, Iowa, Massachusetts, Minnesota, Rhode Island, Michigan and Wisconsin, 1 each.

YOUNG JIM BLAINE

Would Like to Pay His Debts If He Could.

He Is Working for Fifteen Dollarsa Week and that Don't Meet His Expenses.

Philadelphia, Dec. 29.—What salary young James G. Blaine, jr., receives for the performance of his onerous duties in the foreign ticket department of the Pennsylvania railroad has so far been a matter of speculation, as the company itself has been mum on the question.

It has now been developed, however, through the medium of a suit instituted against him by Dr. F. C. Fuller, of New York, who has a bill of $329 against him for medical services rendered his wife, that the stipend paid by the big corporation in question is precisely $60 a month.

Young Blaine says that he would like very much to pay the indebtedness, but does not see how he is going to do it on his present income.

KILLED BY A PLAYMATE.

A Fatal Accident Reported at Napoleon.

Edward Shelt Looked Down the Muzzle of a Loaded Gun—Funeral of Dr. Shoemaker.

Napoleon, Dec. 29.—(Special)—A most distressing and fatal accident happened here yesterday, wherein Edward Shelt, a youth 15 years old, was killed by a Flobert gun in the hands of a small son of Prof. Weisbach.

It seems to have been the old story of the one boy looking down the muzzle of the gun to see whether or not it was loaded, while the other fingered the trigger. The ball entered the forehead, and coursing backward and upward lodged in the brain, causing death in a few hours.

Mr. and Mrs. Shelt are nearly wild with grief, as is also young Weisbach. The boy will be buried to-morrow.

The funeral of Dr. Shoemaker took place from the family residence on Washington street to-day. Rev. Daniels of the Swedenborgen church officiating.

The funeral was one of the largest ever held in Henry county, the doctor being well known in this and adjoining counties.

Many from abroad were present.

COL. JOE BONNER.

The Philadelphia Inquirer has the following complimentary notice relative to the selection of Col. Joseph C. Bonner on the staff of Gov. McKinley:

"Gov. McKinley, of Ohio, has started out well, having appointed as aid on his personal staff Mr. Joseph C. Bonner, of Toledo, chairman of the Lucas county central committee, and an energetic member of the Pennsylvania club, of this city. The appointment, which carries with it the rank of colonel, was made without solicitation, indeed without the personal knowledge of the appointee, and is regarded with especial favor by the Sherman element in the party. No member of the governor's staff will wear the title with more becoming dignity. It is an honor worthily conferred on one of the truest and most zealous republicans in northwestern Ohio. With such men in the saddle, Ohio will be glad the republican party is in power."

It appears by the report of the treasurer of Yale college, which has just been published that the gifts received by the college during the year covered by the report amounted to the large sum of $343,-395. The gifts range in magnitude from $100 to $50,000.

MY MOTHER'S HAND.

Such beautiful, beautiful hands!
They're neither white nor small,
And you, I know, would scarcely think
That they were fair at all.
I've looked on hands whose form and hue
A sculptor's dream might be;
Yet are those aged, wrinkled hands
Most beautiful to me.

Such beautiful, beautiful hands!
Though heart were weary and sad,
These patient hands kept tolling on,
That the children might be glad.
The tears well forth, as, looking back
To childhood's distant day,
I think how these hands rested not
While mine were at their play.

Such beautiful, beautiful hands!
They are growing feeble now,
For time and pain have left their work
On hand and heart and brow.
Alas! alas! how near the time
Of pain and loss to me,
When 'neath the daisies, out of sight,
Those hands will folded be.

But, oh, beyond the shadow land,
Where all is bright and fair,
I know full well these dear old hands
Will palms of victory bear.
Where crystal streams through endless years
Flow over golden sands,
And where the old grow young again,
I'll clasp my mother's hands.

Bright teeth and lips that glow the while,
Give light and color to a smile;
And, infinitely more than this,
Give light and color to a kiss.
But both must suffer from the want
Of the life-giving SOZODONT.

Health has its weight. We cannot go far above or below our healthy weight without disturbing health. We cannot keep health and lose our weight.

It is fat that comes and goes. Too much is burdensome; too little is dangerous.

Health requires enough fat for daily use and a little more for reserve and comfort. That keeps us plump. The result is beauty—the beauty of health.

A little book on CAREFUL LIVING shows the importance of keeping your healthy weight. We send it free.

In France the quail is called the "bird of prophecy," this from an idea that the number of his calls foretells the price of wheat. If he calls twice without resting the farmers expect but 2 francs per bushel for their grain; if the bird calls four times he expects to realize twice the price which two calls insure.

The sport of moose-hunting in Canada requires hardihood, alertness and skill, for the game is wary and sometimes dangerous while roaming through the brush and among the rocks and snow. The meat, the skin and the horns of the animals are valuable in the market. The male moose often weighs from 1,000 to 1,200 pounds.

In a town in France which Mark Twain recently visited he found the sidewalks 18 inches wide, and the humorist thinks they must have been built for cats. And it is told that the streets of Caracas, the capital of Venezuela, are so narrow that the street cars that were imported had to be sawed in two in order to allow them to turn the corners.

A minister arrived at the savings bank in Skowhegan, Me., a few minutes too late to have a check cashed, and he explained to the Sunday school children, for whose use the money was intended, that the bank could not furnish the cash. The children, of course, told their parents, who told everybody else, and there was a run on the bank the next day.

It is reported that a new forest of the most valuable species of gutta percha has been discovered near Singapore. This particular quality of gutta percha was formerly in great demand for sub-marine cables, but the ignorant natives where the forests were located destroyed the trees in their eagerness to supply the market. Steps are being taken to have the British government take action to preserve the forest before it is too late.

Those who have crossed the ocean many times have seen the steamship dining tables cleared of their dishes during a sudden lurch of the ship, notwithstanding the guards around the table. Two boys out in a boat near Boston Island, Booth Bay harbor, last week, saw two big eagles fighting in the air 200 feet above the water. The talons of one bird became entangled in the wing of the other, and both fell into the sea. When the boys rowed up to them one of the eagles showed fight, and they were obliged to kill it, but the other was captured alive and now ornaments a Bath restaurant. He is a handsome bird, and measures six feet from tip to tip.

The Western Union Telegraph company in 1870 had 112,191 miles of wire, 3,972 offices, sent 9,157,646 messages at an expense of $4,910,772 and at a cost to the public of $7,138,738, thus netting $2,227,966 profit. It now has 678,997 miles of wire, 19,382 offices, and last year sent 55,878,762 messages, for which it received $22,387,029, at an expense of $15,074,304, with a profit of $7,312,725. The average toll per message was $1.04 in 1808, 78 cents in 1870, 43 3-4 cents in 1880, and 31 1-4 cents in 1890.

All birds seem to have an instinctive knowledge that if they once surrender to the force of the wind and allow themselves to drift like leaves, there are unknown dangers in store for them. They will hardly ever do so unless to escape pursuit, and then only for a few minutes, when their pace is so marvelously rapid that, in the case of land birds, a few minutes is sufficient to carry them out of the district they know into others, from which they will, perhaps, never be able to find their way back to the fields which are their native home.

There are few foreign communities in the United States in which so many old-world features are preserved as the Rule town of Carlstadt, in Bergen county, near Rutherford, N. J. It is situated on the top of a high hill of what would otherwise be waste land. The houses, and even the streets, are somewhat irregular, but all the houses are surrounded with gardens that are filled in summer with the most luxurious growth of old-fashioned flowers. Flowers, indeed, seem to be a passion in the community. There are beer shops at the street corners, and on Sunday afternoon many family groups may be seen drinking under the trees. The view from the verge of the hill, overlooking the meadows, is fine beyond description.

Unable to Recall Many Incidents of His Life.

The Defense Proceeds with the Examination of Witnesses—The Bottle of Poisoned Whisky Discussed.

Denver, Col., Dec. 29.—In the Graves trial Dr. Graves was recalled to the stand and his cross-examination resumed by Mr. Stevens. The doctor thought he was in Denver, after his brother's death, two or three days. He did not meet Judge Furman at that time. Mrs. Barnaby was a kindly woman, but she was not easily influenced.

"Was she attached to those who did her favors?" asked Mr. Stevens.

"I don't know."

"When you wrote the guardian letter did you tell your wife about it?"

"I don't think so."

"Did you tell Mrs. Graves that people came from the Adriondacks and told you about Mrs. Barnaby?"

"No."

"If you did make such a statement it was untrue?"

"I never made it."

A letter was handed to the doctor, which he identified as having been written by his wife at his dictation.

"This letter refers to this matter?"

"Yes, there are two letters, one dictated by me and the other a note by my wife. One refers to this matter."

"The other one does also?"

"Yes, I must have talked it over with my wife."

"If you had it was equally untrue?"

"I can't answer that."

"But nobody from the Adriondacks told you about this matter?"

"No."

"Then it was true that what you told your wife was false?"

"Yes."

Dr. Graves denied having told Mrs. Hickey that if Mrs. Barnaby took her money out of his hands he would have her sent to an asylum. The letter which the doctor had sent Mrs. Barnaby at San Francisco, but which was returned to him through the Dead Letter office, was again the subject of inquiry by the prosecution. The envelope of this letter was stamped with 3 cents. The contents, as exhibited in court, did not weigh enough to require more than the ordinary 2-cent stamp. The prosecution insinuated that the doctor had replaced the original letter contained in the envelope with a letter which would aid him in his defense. The doctor, however, gave his word of honor that such was not the case.

When asked whether, on his return to Providence from Denver with Mrs. Barnaby's remains, he had drawn a check on her funds for $4,000 the doctor could not remember. Several other things Dr. Graves could not recall at or did not know anything about, although it concerned his dealings in the matter as agent for Mrs. Barnaby. The prosecution here ended their cross-examination of Dr. Graves.

The defense then caused a slight surprise by introducing Daniel Smith as a witness. Smith was the hostler who cared for Mr. Worrell's buggy the night it contained the bottle of whisky for Mrs. Barnaby. Smith has previously appeared as a witness for the prosecution, and then swore that he had not tampered with the package containing the bottle while it was in the livery stable. He was put upon the stand, and, contrary to the expectations of the defense, reiterated his statements that he had not opened the package. The defense then introduced three witnesses to impeach Smith's testimony, but did not succeed to any great extent.

E. R. Bertram was the first of these witnesses. He swore that Smith had told him that he had taken a drink from the bottle of whisky while it was in the stable and that it was good whisky. Bertram on cross-examination admitted that he had been under arrest three times on different charges.

The other two witnesses testified that Smith had told them that the bottle could have been tampered with while in the stable. The above witnesses would not have been admitted had not one of the attorneys for the defense given his word that the defense had learned of his testimony only Saturday last. This attorney afterward admitted to Judge Risley that it might have been a few days later that he had heard of it. Mrs. John Conrad was called in rebuttal and swore that Dr. Graves had told her that he thought Edward Bennett, the guide, had sent the bottle of whisky.

WARMER EACH DAY.

The Mystery of the Present Campaign,

Or Who Attempted to Bribe Mr. Griffin.

Statesmen in Columbus Take Up the Story and Dicuss it with Much Enthusiasm.

Columbus, Dec. 29.—The members-elect to the general assembly and those who are expected here to work in the interest of one or the other of the senatorial candidates, are not arriving as fast as anticipated, but they will probably be on hand in great numbers to-night.

Interest in the fight, however, is already greatly enhanced by the sensational allegations that there have been attempts made to bribe members to vote for the return of Senator Sherman.

When asked about the sensational statement, Chairman Hahn, who arrived from his home in Mansfield at noon to-day, said he had not heard of the charges.

"You may state for me," he said, "that while I do not wish to question the statement of Mr. Griffin, no man ever offered $5,000 or five cents for a vote for Mr. Sherman. We are not responsible for what any irresponsible individual might do, but no man authorized to speak for Mr. Sherman ever thought of such a proposition. We are not conducting a monied campaign. Mr. Sherman never did nor never will be guilty of such work. He is an easy winner in the present contest. If anybody is guilty of approaching Mr. Griffin, as indicated, he should be arrested at once."

Ex-Congressman Thompson was very indignant and did not mince his words on the subject. When asked for his views on the subject he said: "I believe that the whole thing is a fake. It is a malicious, devilish scheme to injure Senator Sherman. No man would dare to make such an offer. Mr. Sherman has never resorted to any methods that had the least suggestion of impropriety, and I know that he has not and will not in this contest. Why did not Griffin have the alleged, would-be briber arrested on the spot? That would have been the only proper thing to do. He owes it to himself now to say who the man was. Let the fellow be identified, that is if he has or ever had an existence. I defy any one to show that it was a Sherman man who made the offer."

Outside comments were freely made, although the gentlemen declined to talk for publication. Some prominent republicans insisted that the Sherman men would make a great mistake if they attempted to bluff Mr. Griffin, as he was generally loaded in a fight of this kind. Said one: "Whether true or not I am not prepared to say, but there has for several weeks been a suspicion that money was to be used in the interest of Mr. Sherman, and in this connection there have been intimations that former campaigns were not conducted with strict propriety."

Another gentleman remarked: "I have nothing to say about this bribery business because I have no information on the subject, but I would like to know if Mr. Sherman and his arrogant backers own the republican party of Ohio and when the mortgage was executed in their favor. It seems to me that it is about time to find some one else to take the place of the senator who has served 36 years in public office. Some time in the near future, according to the declaration of his friends that no one can fill Mr. Sherman's place, we will find ourselves without representation in the United States senate. The assumption of the Sherman managers is an evidence of their weakness, to my mind."

Foraker and Sherman are expected to arrive in Columbus on Thursday evening, the latter from Washington and the former from Cincinnati. The Hamilton county delegation, about which there has been considerable speculation for the past week, will reach the city on Wednesday evening. While Gov. Foraker's headquarters will be at the Chittenden, the Hamilton county delegation will be quartered at the Neil house, where Mr. Sherman and his managers are to be located. The Cuyahoga delegation, the votes of which will probably be divided on the senatorial question, will also arrive on Wednesday.

W. A. Vena, of Toledo, candidate for assistant executive clerk under Governor-elect McKinley, is in the city. Mr. Vena, who is a colored man and was a clerk in the state board of equalization, when asked what he thought of his chances, stated that he was not elated, though his friends assured him there was no cause for him to be discouraged.

W. W. Hanlon, editor of the Barnesville Republican, is a candidate for state oil inspector. He has the support of the Belmont county organization.

Mr. W. E. Dutton, chairman of the county central committee of Morgan county, and publisher of the Malta Register, is out for first assistant sergeant-at-arms of the house. He is backed by the county organization and a strong point is being made that Morgan has never been recognized in the organization, although it is reliably republican on all occasions.

After a careful canvass of the sentiment of the republicans in Licking county by a disinterested gentleman, he states that nine-tenths of them favor the election of ex-Gov. Foraker to the United States senate. They want a man, he states, who carried a gun—a senator in touch with the laboring and great middle class of people.

IT MADE THEM HUSTLE.

Fire in a New York Tenement House.

Occupants Have to Scramble for Their Lives—Many Narrow Escapes Reported.

New York, Dec. 29.—Fire broke out at 8 o'clock yesterday morning in the "Lorena," an eight-story apartment house at Third avenue and Twenty-seventh street, occupied by 28 families, several of whom are theatrical people.

The fire was discovered in the parlor of Charles Fish's apartment on the fourth story and spread with great rapidity to the upper floors.

The tenants on the four lower floors were able to escape by the main stairway, but those on the floors above were obliged to seek refuge by the fire escapes or ascend to the roof, where they crossed on an iron ladder to the roof of Stratton & Storm's cigar factory, separated from the Lorena by a narrow passageway.

Mr. Fish, who discovered the fire, was obliged to abandon everything, and had only time to save his wife and child. The other tenants were also obliged to abandon everything, and many of them who had not yet risen when the fire broke out were forced to fly in their night clothes.

Many of the women were aided to ascend the ladders by the firemen. Some were partly overcome by smoke, but all finally got out in safety. During the excitement thieves entered the building, and Mrs. Avery, one of the tenants, had a pocketbook containing $736 stolen, while Mr. Hutchings and Mr. Appleton, also tenants, each lost a gold watch.

The loss of the occupants of the building by fire and water is estimated at $15,000. The damage to the building is estimated at $2,000.

WILL TAKE THE GIRLS HOME.

Two Chicago Maidens Will Later Praise the Action of the Police.

New York, Dec. 29.—Allie Parker and Dora Van Schaick, the young girls who ran away from their homes in Chicago to go on the stage in New York, and were arrested here at the instance of their relatives, were arraigned in court to-day and delivered into the custody of Miss Parker's father, who will at once take them back home.

MONUMENT TO CHIEF HENNESSY.

New Orleans, Dec. 29.—A design for the monument to the late superintendent of police, David C. Hennessy, who was assassinated by members of the Mafia, was accepted yesterday. The accepted design is a plain shaft of Hallowell granite, 26 feet high, surmounted by a fringed drapery, upon which hangs the dead chief's belt and baton.

NO FOOD FOR SOLDIERS.

St. Petersburg, Dec. 29.—The army contractors in some sections of the country have ceased supplying food to the Russian troops in their districts, owing to inability to obtain the necessary supplies.

STUMP IS INSANE.

So Says the Jury Empaneled to Decide.

He Will Be Taken to the Asylum for Treatment, but is Still in the Hands of the Law—Some Points on His Record.

The jury in the case of the state against James Stump returned a verdict late yesterday afternoon declaring Stump insane.

This action was taken under a section of a state law, providing that in case a man is convicted of crime and the defense afterward raises the point as to the accused's sanity, a jury must be empaneled to try this question alone and to render a verdict as to the man's sanity at the time of trial.

The defense showed that Stump was subject to fits; that he had a very severe attack Saturday, and that before and after these attacks, as well as at the time, he is insane.

The state showed that Stump was sane during the time and on all occasions, excepting a short time before and after the fits.

Stump will be taken to the asylum for treatment, and if cured will be brought back for trial. If he escapes he will be treated as a fugitive from justice.

There has been some talk of undue harshness on the part of the state in prosecuting Stump in this case for horse stealing, but the police department have in their possession documents that show the man to be a confirmed crook and horse thief and a dangerous man to be at large. These documents are in the form of letters from the police of Cleveland, Sandusky and Celina.

They show that in 1883 he was convicted of horse stealing in Sandusky, and on June 21 of that year he was sent to the Ohio penitentiary for a term of years for this crime.

When he had finished this sentence he was sent back to the penitentiary for another term of three years from Celina, Mercer county, for another job of horse stealing.

In June of 1890 he married a woman named Lizzie Martin in Cleveland, and for a time lived in that city, but last May he obtained $40 by false pretenses from a man named J. A. Freidel and left the city.

Soon after he turned up in Toledo and stole a horse from a man named Woodward in Adams township. He was caught in Detroit, where he had the rig in his possession and brought back to this city by Detective Spore. It was on this charge that he was tried here in common pleas court but the jury returned a verdict of receiving stolen property, as Stump set up the defense that he had obtained the rig from another man who turned it over to him at Cole's livery stable in Detroit. Judge Harmon set this verdict aside and ordered a new trial.

The police now have the testimony of Mr. Cole who says that Stump is the man who took the horse and rig to his stable and also took it away.

Another charge of burglary is hanging over Stump, as on the same night that he stole Woodward's horse, it is alleged that he entered the barn of another Adams township farmer named Oren Dority and took a buggy and some harness.

From this it will be seen that the State has good reason for trying to convict this man.

TO ASSASSINATE THE CZAR.

Another Plot Claimed to Have Been Discovered.

Many Prominent Men Placed Under Arrest for Connection With the Latest Sensation.

St. Petersburg, Dec. 29.—The police have been displaying much activity of late, more particularly in Russian Poland, and a very large number of arrests have been made.

One of the arrested at Warsaw was the Polish historian, Vladislav Smolensky. The charges against the persons taken into custody were not known, but it was surmised that they were in some way implicated in designs against the government, or, in other words, that they were plotting against the life of the Czar.

This surmise has proved to be correct, for it has transpired that the arrests were the result of the discovery of the existence of a secret league, the object of which was to assassinate the Czar.

The police upon learning of the existence of the league carefully and patiently followed up the clues that had come into their possession and learned the ramifications of the conspiracy spread to every part of Russian Poland.

The league was not composed entirely of people belonging to the lower classes but included many officials of the civil government, military officers, and a large number of students.

It is not known how many persons have been taken into custody in connection with this latest plot against the life of the Czar, but enough has come to light to show that the haul made by the secret police has been very extensive.

It is thought that many of the persons connected with the conspiracy have taken fright at the knowledge of their plans by the police and they will seek safety by fleeing from the country.

The authorities, however, are said to be well informed as to the movements of every one in any way connected with the plot, and orders have been issued that the Austrian frontier be closely watched for people who may attempt to leave the country without the requisite government permission. It is believed that further arrests will shortly be made at the frontiers.

NO TIME TO ARBITRATE.

Chili Is Busy with Her Government Affairs.

Minister Egan Did Not Attend the Inauguration Ceremonies Because He Was Angry with Matta.

New York, Dec. 29.—The Herald's Valparaiso correspondent says he hardly thinks there is much foundation for the report cabled there from Washington that the Chilian government is likely to propose arbitration as a means of settling the Baltimore trouble.

At the present moment, the correspondent says, enough difficulty is experienced in forming the new cabinet to engross the entire attention of the Chilian administration.

It is said the reasons for Minister Egan absenting himself from the inauguration ceremonies was the insulting tone of Minister of Foreign Affairs Matta's reply to President Harrison's message.

Several arrests have been made in connection with the wrecking of the express train on Christmas night between Santiago and Valparaiso.

KILLED WHILE ON DUTY.

A Conductor Crushed at Chicago Junction.

A Baltimore & Ohio Westbound Train Crashes Into a Caboose with Fatal Results.

Tiffin, O., Dec. 29.—(Special)—The Baltimore & Ohio west-bound limited crashed into a caboose in the yards at Chicago Junction yesterday, instantly killing Conductor Pursell, of Newark, who was standing on the rear platform signaling the engineer to stop.

The caboose had been left on the main track at the east end of the yards while the front portion of the train was being transferred to the side-tracks.

The caboose was reduced to splinters and the locomotive and several cars of the limited badly damaged.

All Shrunk Up

—the flannels that are washed without Pearline; besides, they're worn out by hard rubbing. Wash flannels with Pearline, and they will be softer, brigher and better. They will last twice as long; they will look like new while they last. Every package tells how it's done; do as it says, and it will be done well.

Danger

As one wash is sufficient to ruin flannels, great care should be exercised as to the use of the many imitations which are being offered by unscrupulous grocers or peddlers. 291 JAMES PYLE, New York.

Wheat Quotations for the Day—Price Current for Produce and Other Articles

British Breadstuffs.

London, Dec. 29.—The Mark Lane Express, in its weekly review of the British grain trade, says: A fractional business only has been done in British wheats, owing to the fog which has prevailed, preventing the inspection of samples. The provincial markets have been irregular, but there is generally a slight advance in prices. The board of agriculture reports that the corn is inferior both as regards quantity and quality; in many districts an abnormal proportion of the grain has been shed in the fields. Foreign wheat and flour sold slowly, and generally at a decline. Barley, corn and oats declined, but the absence of Russian samples has given them a tendency to revive. At to-day's markets the prices of best English wheats were maintained. Ordinary grades and corn, barley, malt and foreign wheats dropped 6d. Flour was unchanged; there was a good business.

Northwest Wheat Stocks.

Minneapolis, Dec. 28.—The Northwestern Miller reports the stock of wheat in private elevators of Minneapolis at 1,717,000 bu, an increase over last Monday of 87,000 bu. The total stock of Minneapolis and Duluth is 15,580,670 bu, a gain of 1,327,110. The Market Record gives the stock of wheat in country elevators of Minnesota and the two Dakotas at 11,614,900 bu or 829,400 bu more than last week. This makes the aggregate northwestern stock 27,204,570 bu, an increase for the week of 2,156,510 bu. A year ago the total northwestern stock was 21,822,000 bu.

The Liverpool "Corn Trade News" of December 15.—Italy.—Genoa, Dec. 13.—Wheat market inactive. Markets in the interior declining. Stefani's cable 11th inst.—"Reports received by the minister of agriculture, as to the condition of the seedings are as follows: The state of the fields is very good; wheat is growing well; field labor is continued with some interruption owing to rains; cold and dry weather is desired."

Austria.

Vienna, Dec. 12.—The mild weather that prevailed during last week had a favorable influence on the seedlings and much damage was repaired; but in general the condition of the new crop is still unsatisfactory. Business did not gain in activity, on the contrary we must report a pronounced dullness peculiar to this time of the year. During the last days unfavorable reports of the condition of the seedlings in America provoked a slight advance at our market.

The Markets.

London wheat market quiet and slow; corn nothing offering. Liverpool wheat dull, unchanged; corn 1-2d lower per 100 lbs. Weather warm.

The receipts of wheat at seven principal western points to-day are 668,276 bu, compared with 374,383 bu on the same day last year.

Shipments of wheat from India last week equaled 320,000 bu. Previous week 1,200,000 bu. From April 1, the commencement of the crop year, to December 26, 45,418,000 bu, compared with 21,120,000 bu in the corresponding period in 1890.

The imports into the United Kingdom for the week were 1,496,000 bu. of wheat and 248,000 bbls. of flour, equal to 2,612,000 bu of wheat, and 800,000 bu of corn.

The quantity of flour and wheat on ocean passage decreased last week 2,592,000 bu., being a decrease to the United Kingdom of 1,168,000 bu. and a decrease to the Continent of 1,424,000 bu. Corn increased 160,000 bu.

Our table herein of available wheat and corn shows a decrease of 1,234,697 bu. wheat, and an increase of 2,109,230 bu. corn.

Stocks of grain in public warehouses in Liverpool include 2,862,000 bu. of wheat and 160,000 bu. corn.

The stock of flax seed at Duluth, in store and afloat, is reported at 247,141 bu., against 232,471 bu.

The grain blockade at Buffalo has been raised and the receipts for the season aggregate 128,806,000 bu. of grain and 8,250,000 bu. flax seed.

The bureau of statistics reports that 38,615 immigrants arrived in the United States during the month of November, 1891, as compared with 40,643 during November of last year.

The Wheat Situation.

There are several new points of interest in the wheat situation this morning worth mentioning. The import into the United Kingdom last week in flour and wheat equaled 2,612,000 bus. Previous week 3,408,000 bus. The average for four weeks is 3,998,000 bus. Decrease from the average 1,386,000 bus.

The shipments of wheat from India last week were 320,000 bus. The average for four weeks previous to last week was 1,010,000 bus. Decrease from average, 690,000 bus. The quantity of flour and wheat on ocean passage decreased last week 2,592,000 bus. These items of decrease aggregate 4,658,000 bus. While something is due to the season of holidays, it is quite a remarkable decrease in the movement.

The late decline in wheat on this side of the ocean has brought our wheat prices within a parity with Liverpool quotations, and which has more significance than usual in its relation to the decreased wheat movement. But it affords little help in view of moving grain eastward.

Opening prices of wheat to-day indicated more strength in the markets of this country, but after the execution of some buying orders the old chronic weakness again took possession of the market and prices worked downward below the closing of yesterday. Prices of wheat are now much below the average since August 15th and possibly they are too low. Who knows?

Corn has been fairly maintained, with limited fluctuations, and closes about as yesterday.

London wheat market closes better for prompt shipment and lower off coast.

Liverpool wheat and corn close weak.

Berlin and Paris quoted lower.

In New York December wheat closed 1-8c lower and May unchanged. December corn 1-2c and May 1-8c lower. January oats 3-8c up.

In Chicago—December wheat closed 3-8c and May 1-8c lower; December corn 1-4c higher and May 1-8c lower; December oats unchanged.

In Toledo—There has been a fair increase in business. Wheat futures were dealt in more freely than for some days. Opening and later prices were 1-8@1-2c better, the advance was lost and prices closed 1-8c lower than yesterday. Early sales of December were made at 95 1-2c, closing at 94 3-4c; January sold at 94 3-8c; May commenced at $1 00 3-8, sold up to $1 00 5-8 and left off at $1 01 1-8, a loss of 1-8c. Cash wheat was in light request only. No. 2 soft sold at 95c, and at close 94 3-4c was the price. No. 3 soft at 19c. Rejected No. 1 at 89c. White rejected at 81c.

Corn—No. 2 at 42c; January at 41 1-4c; No. 3 at 40c; No. 4 at 38c; No. 2 yellow at 42@42 1-2c.

Rye—No. 2 at 89c; No. 3 at 87c.

Clover seed was dull and a shade lower. December, $5.40; January, $5.40; February, $5.42 1-2; No. 2 at $5.15.

BIG BLAZE IN TIFFIN.

Ten Barns Devoured by the Roaring Flames.

Splendid Work by the Tiffin Fire Department Saved the City From Heavy Loss.

Tiffin, O., Dec. 29.—This city had a narrow escape from a conflagration this morning. At 1:10 o'clock an alarm was turned in and was immediately followed by a general alarm, calling out the entire department.

The fire was discovered in a large barn at the rear of the Tiffin house, and from there rapidly spread to adjoining structures. A high wind prevailed and no one expected that the fire could be controlled, but the firemen fought nobly and confined the flames to a remarkably small space.

Ten barns were consumed but the contents of most of them were saved. Two horses and one cow are known to have perished, and several thousand dollars worth of property was destroyed, which is partially covered by insurance.

The most valuable structure destroyed was the headquarters of Holt Brothers' hack and baggage line, and they were fully insured.

A number of buildings on the windward side of the fire were discovered to be in flames and great apprehension was felt all over the northern portion of the city, as burning shingles alighted on the roofs of buildings three-fourths of a mile distant from the place where the fire originated.

The department never did better work and the firemen are receiving the universal commendation of the citizens.

THE BIG MIANTONOMOH.

She Will Be Ready for Service on Friday.

Much Mystery Among the Navy Yard Officials About Future Movements of the Turreted Monitor.

New York, Dec. 29.—The heavy, double-turreted monitor Miantonomoh will be ready for sea on Friday, five days earlier than was originally intended. There is an air of mystery to-day about the officers in the navy yard in regard to her future movements.

The work of coaling will be finished to-day, and the ordnance department will proceed to fill her magazines with powder and projectiles.

"We are going on our trial trip on Friday to Gardiner's bay to test our guns," said an officers of the Miantonomoh. "It is possible we may go to the West Indies before we return, but of that we would not be likely to know anything at present."

NEWSPAPER V. BILL-BOARD.

Mr. Richard Mansfield, the famous actor, has made a decided innovation in the matter of his theatrical advertising. He has instructed his manager to discontinue the use of lithographs, showcards, and flaring dead wall announcements, and to confine his advertising hereafter to the newspapers as the surest medium for reaching all classes of theater-goers. In adopting this style of advertising Mr. Mansfield has set an example which others, not only in his own profession, but in various kinds of business, would do well to imitate. Street and show window advertising has been carried to such an extent of flamboyance that it no longer has any significance. The poorest shows, indeed, usually make the most flaring and gaudy displays, until at last the pictorial art has been exhausted. It is doubtful whether this kind of advertising pays any longer, and if such be the case, as Mr. Mansfield thinks, it is a waste of money to continue it. There is no better or cheaper medium for advertising than the newspaper, especially those newspapers which have a large circulation.—Chicago Tribune.

POETRY, NOT BRAINS.

A lady living at Richmond, in Surrey, was considerably perplexed as to the meaning of a certain passage in one of Tennyson's poems which she was at that time reading. At length she decided to write to the author and ask him to explain; accordingly she sent him a letter stating her difficulty and requesting the favor of a solution. In response she received the following epistle:

"Dear Madam—I merely supply poetry to the English people, not brains.—Yours obediently, ALFRED TENNYSON."

THEY HADN'T A WORD TO SAY.

Two gentlemen of Toledo dropped into our store last week and asked to be shown some Overcoats. After the salesman had shown them through the stock, tried on some of the coats, and had tried to create a favorable impression upon them by emphasizing the superiority of the Fit, Style and General Excellence of our garments, one of them remarked "that they were just looking around, and if they couldn't do any better they would come back." "Very well, gentlemen," said the salesman, "but as you probably cannot tell the difference between an imported and a domestic fabric, how do you expect to tell the relative worth of a garment you see here and one you might see at some other house?" "I don't know that we can," was the reply. We then suggested that one of them should wear one of our coats in their shopping tour (we knew the men) that they might be able to make a comparison. After an hour or two had passed they returned and purchased a coat from us. "What do you think of the other stocks?" was asked. They replied: "We saw nothing that will compare with yours. Your goods are not only better made, but they fit better, and your prices are lower, too. And another thing we noticed was that the other houses, when praising their goods would say, these are as well made as Mockett's, or these will fit as well as Mockett's, but when we asked them to match the coat I wore in Style, Quality, Fit and Price, they hadn't a word to say."

WE HAVE OVERCOATS FOR EVERYBODY.

In addition to our regular ready made line we have made to our special order some of the choicest fabrics, consisting of Kerseys, Meltons, Beavers, Cheviots, etc., made in the highest of style by the standard manufacturers of the east, and the prices are only about one-half what you will have to pay the local tailors, while the style, fit and general workmanship is infinitely superior to the custom tailor work of the city. We can give you Regular Cut Overcoats for ordinary built men. We can give you Slim Cut Overcoats for the lean and hungry-looking man. We can give you Stout Cut Overcoats for the fat and sleek man, and where a man has any peculiarity in form or fancy that we cannot fit, we will make him a garment to order at ready made prices. We do not propose to leave anything undone that can be done, to please our trade.

MUMMY FIRE ELECTION NIGHT.

The burning of a case containing two mummies of Egyptian princes, the only ones of the kind left in the land of the Pharaohs, was the cause of the arraignment of Alfred Madden and James Lakeman in the Kings county court of sessions yesterday, for malicious mischief. Both plead not guilty. Judge Moore remanded both men to jail.

The mummies, which are said to have been worth $1,000 in elephants' tusks in the city of Alexandria, were contained in a large case together with a piece of coral, said to have been worth $500, and an oyster shell with a sponge. This treasured collection was taken from in front of Marcus Hirsch's store, No. 242 Bridge street, by the accused, it is alleged, and was used to feed a bonfire on election night at Bridge and Chapel streets.—New York Herald.
